WHEREAS, by joint resolution of July 7, 1898 (30 Stat. 750), when Hawaii was annexed to the United States, it was provided that the existing land laws of the United States should not apply to lands in the Hawaiian Islands, but that Congress should make special laws for their management and disposition; and

WHEREAS, by section 91 of the act of April 30, 1900 (31 Stat. 159), Congress provided that the public property ceded and transferred to the United States by the Republic of Hawaii should remain in the possession, use, and control of the government of the Territory of Hawaii, until otherwise provided for by Congress or "taken for the uses and purposes of the United States by direction of the President or of the Governor of Hawaii"; and

WHEREAS the Acting Governor of Hawaii, Henry E. Cooper, under the authority of the said act of April 30, 1900, did, by proclamation dated June 10, 1901, declare that a certain tract of land known as Kewalo-uka on Punchbowl Hill, Honolulu, Oahu, was "taken for the uses and purposes of the United States" and said tract has since been used by the United States Department of Agriculture for an experiment station; and

WHEREAS, by the act of May 27, 1910 (36 Stat. 447), section 91 of the said act of April 30, 1900, was amended so as to provide that any such property in Hawaii as should be taken for the uses and purposes of the United States, in accordance with the act of April 30, 1900, might be "restored to its previous status by direction of the President"; and

WHEREAS the Governor of the Territory of Hawaii desires to have returned to the possession, use, and control of the Territorial government a certain portion of said tract of land, amounting to thirty (30) acres, more or less, as hereinafter more particularly described, in order that it may be used, together with other adjacent lands already in control of that government, for home sites by the people of Hawaii; and

WHEREAS the United States Department of Agriculture is willing to relinquish its use of the said 30 acres in favor of its proposed use, as aforesaid, by the Territorial government of Hawaii;

Now, THEREFORE, by virtue of the authority vested in me by the aforesaid act of May 27, 1910, I do direct that the thirty (30) acres of land, more or less, as herein-after more particularly described, being a portion of said tract of land known as Kewalo-uka, be, and the same is hereby, restored to its previous status in the possession, use, and control of the government of the Territory of Hawaii.

### Appointment of Mrs. Cecil Alexander

Mrs. Cecil Alexander may be appointed to an appropriate position in the Post Office Department or the field service thereof without regard to the requirements of the civil-service rules.

Mrs. Alexander, who is employed as contact clerk in the office of the postmaster at Dallas, Tex., and who has performed very efficient service as such since February 18, 1930, is now past the maximum age for admission to competitive examination. It is represented, because of her peculiar qualifications and ability to handle the public due to her extended experience in the business world in confidential and responsible positions prior to her temporary appointment in the Dallas office, that the Postal Service will suffer materially by the discontinuance of the services of Mrs. Alexander and it is not possible through regular channels to replace her with a new appointee possessing like ability, tact, and proficiency required of this position.

This order is issued upon the recommendation of the Postmaster General.

### Amendment of the Civil-Service Rules Relating to Veterans' Preference

The civil-service rules are hereby amended as indicated below.

Rule VI, paragraph 1, is amended to read as follows by eliminating the sentence "Applicants for entrance examination who, because of disability, are entitled either to a pension by authorization of the Bureau of Pensions or to compensation or training by the Veterans' Bureau, and widows of honorably discharged soldiers, sailors, and marines, and wives of injured soldiers, sailors, and marines who themselves are not qualified, but whose wives are qualified for appointment, shall have ten points added to their earned ratings," and substituting therefor the sentence "Applicants for entrance examination who are honorably discharged and who establish by official records the present existence of a service-connected disability, and widows of honorably discharged soldiers, sailors, and marines, and wives of honorably discharged soldiers, sailors, and marines who because of service-connected disability are themselves not qualified but whose wives are qualified for appointment, shall have ten points added to their earned ratings; and this shall also apply to retired officers and enlisted men who establish through official sources the present existence of a service-

connected disability in the same manner as is required of others who are granted disability preference”:

Examination papers shall be rated on a scale of 100, and the subjects therein shall be given such relative weights as the commission may prescribe. Honorably discharged soldiers, sailors, and marines shall have five points added to their earned ratings in examinations for entrance to the classified service. Applicants for entrance examination who are honorably discharged and who establish by official records the present existence of a service-connected disability, and widows of honorably discharged soldiers, sailors, and marines, and wives of honorably discharged soldiers, sailors, and marines who because of service-connected disability are themselves not qualified but whose wives are qualified for appointment, shall have ten points added to their earned ratings; and this shall also apply to retired officers and enlisted men who establish through official sources the present existence of a service-connected disability in the same manner as is required of others who are granted disability preference. In examinations where experience is an element of qualifications, time spent in the military or naval service of the United States during the World War or the war with Spain shall be credited in an applicant's ratings where the applicant's actual employment in a similar vocation to that for which he applies was temporarily interrupted by such military or naval service but was resumed after his discharge. Competitors shall be duly notified of their ratings.

Rule VI, paragraph 2, is amended to read as follows by eliminating the clause “but the names of disabled veterans, their wives, and the widows of honorably discharged soldiers, sailors, and marines shall be placed above all others,” and substituting therefor the clause “but the names of persons entitled to disability preference as defined in paragraph 1 of this rule shall be placed above all others”:

All competitors rated at 70 or more shall be eligible for appointment, and their names shall be placed on the proper register according to their ratings; but the names of persons entitled to disability preference as defined in paragraph 1 of this rule shall be placed above all others.

The foregoing amendments to Civil-Service Rule VI will apply to future examinations conducted by the Civil Service Commission.

Rule VII, paragraph 1(b), is amended to read as follows by eliminating the sentence “An appointing officer who passes over a veteran eligible and selects a nonveteran with the same or lower rating shall place in the records of the department his reasons for so doing,” and substituting therefor the sentence “An appointing officer who passes over a veteran eligible and selects a nonveteran with the same or lower rating shall file with the Civil Service Commission the reasons for so doing, which reasons will become a part of the veteran's record but will not be made available to the veteran or to anyone else except in the discretion of the appointing officer”:

The nominating or appointing officer shall make selections for the first vacancy from not more than the highest three names certified, or on the register, with sole reference to merit and fitness, unless objection shall be made and sustained by the commission, to one or more of the persons certified, for any of the reasons stated in Rule V, section 4. For the second vacancy he shall make selection from not more than the highest three remaining, who have not been within his reach for three separate vacancies, or against whom objection has not been made and sustained in the manner indicated. The third and any additional vacancies shall be filled in like manner. More than one selection may be made from the three names next in order for appointment, or from two names if the register contains only two, subject to the requirements of section 2 of this rule as to the apportionment. An appointing officer who passes over a veteran eligible and selects a nonveteran with the same or lower rating shall file with the Civil Service Commission the reasons for so doing, which reasons will become a part of the veteran's record but will not be made available to the veteran or to anyone else except in the discretion of the appointing officer. Any eligible who has been within reach for three separate vacancies in his turn may be subsequently selected, subject to the approval of the commission from the certificate on which his name last appeared, if the condition of the register has not so changed as to place him in other respects beyond reach of certification.

The Civil Service Commission is authorized to hold quarterly examinations for positions for which there are existing registers of eligibles, such examinations to be open only to the men and women entitled to disability preference as herein provided, the names of the resulting eligibles to be entered at the head of the existing registers in the order of ratings attained in competition with the disability-preference eligibles, if any, whose names may already appear at the head of such registers.

### Amendment of Article X of Consular Regulations

Section 140, Article X of the Consular Regulations, is hereby amended to read as follows:

140. *Naturalization and citizenship of married women.* It is provided by an act of Congress of September 22, 1922 (42 Stat. 1021), as amended by two acts of Congress approved July 3, 1930 (46 Stat. 849 and 854), and the act of Congress approved March 3, 1931 (46 Stat. 1511):

1. That the right of any woman to become a naturalized citizen of the United States shall not be denied or abridged because of her sex or because she is a married woman.

2. That any woman who marries a citizen of the United States after the passage of this act, or any woman whose husband is naturalized after the passage of this act, shall not become a citizen of the United States by reason of such marriage or naturalization; but, if eligible to citizenship, she may be naturalized upon full and complete compliance with all requirements of the naturalization laws, with the following exceptions:

(a) No declaration of intention shall be required;

(b) In lieu of the 5-year period of residence within the United States and the 1-year period of residence within the State or Territory where the naturalization court is held, she shall have resided continuously in the United States, Hawaii, Alaska, or Porto Rico for at least one year immediately preceding the filing of the petition.

3. (a) A woman citizen of the United States shall not cease to be a citizen of the United States by reason of her marriage after this section, as amended, takes effect, unless she makes a formal renunciation of her citizenship before a court having jurisdiction over naturalization of aliens.

(b) Any woman who before this section, as amended, takes effect, has lost her United States citizenship by residence abroad after marriage to an alien or by marriage to an alien ineligible to citizenship may, if she has not acquired any other nationality by affirmative act, be naturalized in the manner prescribed in section 4 of this act, as amended. Any woman who was a citizen of the United States at birth shall not be denied naturalization under section 4 on account of her race.

(c) No woman shall be entitled to naturalization under section 4 of this act, as amended, if her United States citizenship originated solely by reason of her marriage to a citizen of the United States or by reason of the acquisition of United States citizenship by her husband.

4. (a) A woman who has lost her United States citizenship by reason of her marriage to an alien eligible to citizenship or by reason of the loss of United States citizenship by her husband may, if eligible to citizenship and if she has not acquired any other nationality by affirmative act, be naturalized upon full and complete

compliance with all requirements of the naturalization laws, with the following exceptions:

(1) No declaration of intention and no certificate of arrival shall be required, and no period of residence within the United States or within the county where the petition is filed shall be required;

(2) The petition need not set forth that it is the intention of the petitioner to reside permanently within the United States;

(3) The petition may be filed in any court having naturalization jurisdiction, regardless of the residence of the petitioner;

(4) If there is attached to the petition, at the time of filing, a certificate from a naturalization examiner stating that the petitioner has appeared before him for examination, the petition may be heard at any time after filing.

(b) After her naturalization such woman shall have the same citizenship status as if her marriage, or the loss of citizenship by her husband, as the case may be, had taken place after this section, as amended, takes effect.

The amendment made by this section to section 4 of such act of September 22, 1922, shall not terminate citizenship acquired under such section 4 before such amendment.

5. (Repealed by section 4(b) of the act of March 3, 1931.)

6. That section 1994 of the Revised Statutes, which reads as follows:

"Any woman who is now or may hereafter be married to a citizen of the United States, and who might herself be lawfully naturalized, shall be deemed a citizen."

and section 4 of the Expatriation Act of March 2, 1907 (34 Stat. 1229), which reads as follows:

"That any foreign woman who acquires American citizenship by marriage to an American shall be assumed to retain the same after the termination of the marital relation if she continues to reside in the United States, unless she makes formal renunciation thereof before a court having jurisdiction to naturalize aliens, or if she resides abroad she may retain her citizenship by registering as such before a United States consul within one year after the termination of such marital relation."

are repealed. Such repeal shall not terminate citizenship acquired or retained under either of such sections, nor restore citizenship lost under the latter.

7. That section 3 of the Expatriation Act of March 2, 1907 (34 Stat. 1228), which reads as follows:

"That any American woman who marries a foreigner shall take the nationality of her husband. At the termination of the marital relation she may resume her American citizenship, if abroad, by registering as an American citizen within one year with a consul of the United States, or by returning to reside in the United States, or,

if residing in the United States at the termination of the marital relation, by continuing to reside therein.”

is repealed. Such repeal shall not restore citizenship lost nor terminate citizenship resumed under this section. A woman who has resumed under such section citizenship lost by marriage shall, upon the passage of this act, have for all purposes the same citizenship status as immediately preceding her marriage.

8. That any woman eligible by race to citizenship who has married a citizen of the United States before the passage of this amendment, whose husband shall have been a native-born citizen and a member of the military or naval forces of the United States during the World War and separated therefrom under honorable conditions; if otherwise admissible, shall not be excluded from admission into the United States under section 3 of the Immigration Act of 1917, unless she be excluded under the provisions of that section relating to—

(a) Persons afflicted with a loathsome or dangerous contagious disease, except tuberculosis in any form;

(b) Polygamy;

(c) Prostitutes, procurers, or other like immoral persons;

(d) Persons convicted of crime: *Provided*, That no such wife shall be excluded because of offenses committed during legal infancy, while a minor under the age of 21 years, and for which the sentences imposed were less than three months, and which were committed more than five years previous to the date of the passage of this amendment;

(e) Persons previously deported;

(f) Contract laborers.

That after admission to the United States she shall be subject to all other provisions of this act.

### **Regulations Governing the Occupation and Maintenance of Certain Foreign Service Quarters**

For the purpose of carrying into effect the provisions of the "Foreign Service Buildings Act, 1926" (44 Stat. 403), as amended by the act of May 29, 1928 (45 Stat. 971), the following regulations are established as to the occupation and maintenance of diplomatic and consular residential and office quarters owned or leased for long terms by the United States:

1. For the purpose of these regulations, the word "property" will be used to apply to embassy, legation, or consular real estate, and the title "the officer" will be used to indicate as ranking American representative either an ambassador, minister, minister resident, agent, or Foreign Service officer.

2. The officer for the time being is, unless otherwise specially authorized by the department, to be deemed the American official in charge of the property. He will be responsible therefor in the manner hereinafter prescribed, and on entering into occupation is required to sign an agreement in the following form:

I have received a copy of the Regulations Governing the Occupation and Maintenance of Certain Foreign Service Quarters, dated \_\_\_\_\_ I have read said regulations; and, so far as they may be applicable to my occupation of \_\_\_\_\_, I undertake to recognize as a legal claim on me or my estate the liability to repay to the Department of State the cost of making good such deficiencies or damage as may be decided to be properly chargeable to me under these regulations.

3. At each property are to be kept inventories of furniture and other properties belonging to the Government of the United States, in the form prescribed by regulation, and copies of all instructions and rules relating to their management. Duplicate copies of such documents will be retained in the Department of State.

4. Upon every change of occupation, a survey of the premises and furniture will be made by the outgoing officer and his successor or substitute. From time to time, such a survey will be made by a duly appointed agent of the Secretary of State. Any deficiency, misuse, or waste of Government furniture or other property will be carefully noted in the survey, in order that the cost of replacement or of making good any damage arising from neglect or improper usage may be recovered from the responsible officer. A copy of the survey will be transmitted to the department.

5. The survey on change of occupation will, whenever possible, be made as soon as the outgoing officer has removed his private property therefrom. Until the survey has been made, the outgoing officer should retain in charge of the house some servant or other person responsible to him, who may represent him when the survey is made. The incoming officer should also be either present or represented, in order that he or his representative may sign the inventory and take charge of the house as soon as the survey is complete. Officers should communicate directly with the Department of State as to details of these arrangements.

6. The Secretary of State shall decide all matters relating to the maintenance and due preservation of property and to the expenditure of moneys appropriated by Congress.

7. The present permanent official residences shall be deemed complete and suitable in all respects for the reception of officers appointed to occupy them, and no alteration or addition of any kind to buildings, fittings, or furniture will be paid for by the Department of State unless it shall have been previously authorized by the department. Should any alterations or additions be made without such prior authorization, the officer will be responsible not only for the expense thereof but for any expense thought necessary by the department for restoring buildings, fittings, or furniture to their original state. The prior sanction of the department should be obtained before any instructions are given to local architects to prepare schemes and estimates other than those of a purely approximate character which involve no special fee or commission if the work is not carried to completion.

8. Recommendations for purchases of property, for construction and repairs, and for purchases and repairs of furniture are to be sent immediately the necessity arises to the Department of State. Proposals involving large expenditure should be forwarded in time to reach the department before the first of March, so that, if

approved by the department, they may be submitted to the office of the Bureau of the Budget for consideration with the annual estimates for the next Budget.

9. Officers are to use all reasonable precautions against fire; and when extinguishers, fire hydrants, or other appliances are supplied, they are to satisfy themselves that such appliances are examined from time to time and if necessary tested, in order to ascertain their efficiency.

10. In the event of the death of the responsible officer, or of other vacancy in the post, the next ranking official will be responsible for the proper custody of Government property. He should at once report to the Secretary of State the arrangements which he has made for this purpose, and should apply for the Secretary's sanction to any expenditure that it may be necessary to incur pending the appointment of the incoming officer. He should at once verify the state of the property, if possible with a representative of the deceased or departed officer, and should sign the inventory.

11. The holding of auctions of private effects in or upon Government premises is strictly forbidden.

12. The fabric of all Government-owned buildings, with the permanent fixtures attached thereto, the boundary walls, entrance gates, and approaches, will be kept in an efficient state of repair by the Department of State.

13. Periodical painting and coloring of exterior, and papering, painting, coloring, etc., of interior, will be done only upon authorization by the Department of State. Exterior painting will, as a rule, not be authorized more frequently than once in every three years; nor interior painting more frequently than once in every four years. Painting at shorter intervals than these may be authorized by the Department of State if it is satisfied that such a need has arisen only from fair wear and tear.

14. In case of damage by storm, fire, or other casualty, the expense of restoration of Government-owned buildings will be borne by the Department of State, provided the officer can show to the satisfaction of the department that the damage was in no way due to neglect of proper precautions. Urgent repairs may be executed at once to prevent further damage from exposure, but the officer should telegraph facts and obtain authorization for such emergency repairs where the damage is extensive and the outlay required will be large. Estimates of the cost of repairing the damage should be obtained and submitted to the Secretary of State and his approval and authorization obtained before ordering repairs.

15. The cost of renewing fittings and fixtures worn out by natural wear and tear will, when authorized, be borne by the Department of State, as well as the cost of repairs. The officer must himself defray the cost of ordinary and periodical clean-

ing, including the sweeping of chimneys, the cleaning of kitchen flues and boilers, and the cleaning of tanks and cisterns.

16. The Department of State will, within the limits of appropriations made by Congress, provide, maintain, and repair the necessary apparatus and fittings for heating, lighting, and supplying water; and it will pay reasonable charges for the actual supplying of fuel, electric current, gas, and water for the property.

17. No trees may be removed except such as are of small size and value, nor may alterations be carried out in the grounds which are likely to increase the cost of maintenance or alter the appearance, without the authorization, given in advance, of the department.

18. Whenever, in consequence of the occurrence of contagious or infectious disease in the household of an officer, disinfection has become necessary in order to protect the health of the occupants, the officer will be held responsible for providing that the premises are sufficiently disinfected, and for procuring from a medical officer a certificate that this has been done.

19. Furniture will be supplied within the limits of available appropriations by the department for all Government-owned properties. Officers will be required to use the Government furniture as part of the equipment of the post; or, alternatively, they must be responsible for its care and storage.

20. The Department of State will bear the cost of renewing and repairing office furniture at properties; but the cost of ordinary and periodical cleaning, including the beating of carpets, the cleaning or washing of curtains, etc., must be borne by the officer.

21. The sanction of the department must be obtained before old furniture is repaired or replaced by new, and such sanction will be granted only when a reasonable time has elapsed since the articles to be replaced or repaired were originally purchased.

22. Officers will be held personally responsible for the due preservation of residence and office furniture and furnishings and for the immediate repair, at their personal cost, of defects arising from neglect or improper use. It is understood that the Department of State will not renew or repair furniture, carpets, curtains, etc., which may be destroyed or damaged by the keeping of animals, birds, etc., or through being stored, and that all such damage must be repaired by the officer, who is also responsible for neglect of instructions or damage by his servants, subordinates, or guests.

23. Furniture or other Government property is not, without the written sanction of the Department of State, to be removed from apartments furnished at Government expense. This prohibition applies equally to the removal of furniture from

one house to another on the property. Should this rule be disregarded, and the articles become depreciated in value through being so transferred, or through being stored or otherwise neglected, the officer will be held personally responsible for the depreciation. Under no circumstances may the property of the Government be loaned or sublet without the previous approval of the department.

24. In cases where property or furniture is provided for the use of a member of the Foreign Service below the rank of officer in charge, the same regulations will apply, except that the correspondence and accounts will be submitted through the officer in charge and not direct.

25. Whenever the ranking officer is absent from the post beyond the normal period of leave of absence with pay (that is, 60 days plus transit time), provided that no member of his immediate family remains in the house, or during any absence for a shorter period in case of a mutual agreement of the two officers concerned, the substitute officer at the post will be authorized to occupy the premises. The survey mentioned in paragraph 4 and the transfer of the furniture and other property on the inventory must be made when such a change of occupation takes place.

26. Space in Government-owned buildings shall be allotted by the Secretary of State under the direction of the Foreign Service Buildings Commission, and when allotted should not be changed except upon specific authorization.

### **Participation in the Government of Arlington County, Virginia, by Federal Employees Permanently Residing Therein**

Officers and employees of the executive civil service permanently residing in Arlington County, Va., may become candidates for and hold local office in such county and may participate in campaigns for election to such offices.

In the exercise of the privilege granted by this order, officers and employees must not neglect their official duties and must not engage in national or state politics in violation of the civil-service rules. If there is such violation, the head of the department or independent office in which the person is employed shall inflict such punishment as the Civil Service Commission shall recommend.

Officers and employees elected or appointed to offices requiring full-time service shall resign their positions with the Federal Government. If elected or appointed to offices requiring only part-time service, they may accept and hold same without relinquishing their Federal employment, provided the holding of such part-time office does not conflict or interfere with their official duties as officers or employees of the Federal Government.

This order is based upon the facts that Arlington County is substantially a municipality, that a considerable number of the residents and taxpayers are employed in the Government service, that service as local officers in such county should in no way involve general partisan political activity, and that the principle of home rule and local self-government justifies such participation.

The permission granted by this order may be suspended or withdrawn by the Civil Service Commission when, in its opinion, the activities resulting therefrom are, or may become, detrimental to the public interest or inimical to the proper enforcement of the civil-service rules.

### Assignment of Frequencies to Government Radio Stations

WHEREAS section 6 of the Radio Act of 1927 (44 Stat. 1165) provides as follows:

"Radio stations belonging to and operated by the United States shall not be subject to the provisions of sections 1, 4, and 5 of this Act. All such Government stations shall use such frequencies or wave lengths as shall be assigned to each or to each class by the President. All such stations, except stations on board naval and other Government vessels while at sea or beyond the limits of the continental United States, when transmitting any radio communication or signal other than a communication or signal relating to Government business shall conform to such rules and regulations designed to prevent interference with other radio stations and the rights of others as the licensing authority may prescribe. Upon proclamation by the President that there exists war or a threat of war or a state of public peril or disaster or other national emergency, or in order to preserve the neutrality of the United States, the President may suspend or amend, for such time as he may see fit, the rules and regulations applicable to any or all stations within the jurisdiction of the United States as prescribed by the licensing authority, and may cause the closing of any station for radio communication and the removal therefrom of its apparatus and equipment, or he may authorize the use or control of any such station and/or its apparatus and equipment by any department of the Government under such regulations as he may prescribe, upon just compensation to the owners. Radio stations on board vessels of the United States Shipping Board or the United States Shipping Board Emergency Fleet Corporation or the Inland and Coastwise Waterways Service shall be subject to the provisions of this Act."

AND WHEREAS the Government departments using radio find it necessary for efficient operation to make some changes in previous frequency assignments to

individual stations which will not add to the total number of frequencies assigned for Government use and have requested that such changes be authorized;

Experimental

The following Government experimental radio stations are authorized to use miscellaneous frequencies from time to time provided no interference is caused with other authorized service:

Navy Department: Naval Research Laboratory (NKF); Annapolis (NZO); Quantico (NZY).

War Department: Fort Monmouth, N. J. (WLY); Wright Field, Ohio (WZAJ).

Department of Commerce: Bureau of Standards, Washington, D. C. (WWV).

In the allocation of these frequencies the following principles have been followed and shall be followed in the consideration of future applications for use of frequencies by Government departments:

#### UTILIZATION OF EXISTING COMMUNICATION FACILITIES

"No department shall erect a new station in the proximity of an existing government station, unless the same is incapable of rendering to such department the service that it requires, which shall be determined only after careful consideration by the departments concerned or by the permanent interdepartment organization. Whenever practicable, such a situation shall be met by the expansion of the existing stations, if necessary under joint contribution of the Departments interested. No department shall close a station no longer needed by it which is serving other Government departments without first making arrangements in respect to such service that are satisfactory to the departments being served."

#### GOVERNMENT ENCOURAGEMENT TO PRIVATE RADIO ENTERPRISES

"The Government will encourage and foster the development of privately owned and operated radio facilities in such a manner that in time of war or similar national emergency there shall be available the most effective system for the national defense. In part, this encouragement shall consist of utilizing the services of commercial stations wherever Government interests warrant in the accomplishment of the service required."

The stations listed herein may use other frequencies for the purpose of selecting a frequency more suitable for a particular service prior to requesting authority to change the frequency, provided a notice is first submitted to the Interdepartment Radio Advisory Committee and also a notice to the Federal Radio Commission, if the frequency is not included in the Executive order, on the proviso that it will cease operation on notice of interference from the Interdepartment Radio Advisory Committee or the Federal Radio Commission and such use shall not be for more than one month total.

The powers of the stations shown are those at the time of issuance of Executive order and are not limitations upon the stations.

The locations given are locations of the transmitting apparatus; and where control points are different, they are given in parentheses.

This Executive order supersedes Executive Order No. 5197-A, September 30, 1929.

### Assignment of Frequencies to Government Radio Stations

WHEREAS section 6 of the Radio Act of 1927 (44 Stat. 1165) provides as follows:

"Radio stations belonging to and operated by the United States shall not be subject to the provisions of sections 1, 4, and 5 of this Act. All such Government stations shall use such frequencies or wave lengths as shall be assigned to each or to each class by the President. All such stations, except stations on board naval and other Government vessels while at sea or beyond the limits of the continental United States, when transmitting any radio communication or signal other than a communication or signal relating to Government business shall conform to such rules and regulations designed to prevent interference with other radio stations and the rights of others as the licensing authority may prescribe. Upon proclamation by the President that there exists war or a threat of war or a state of public peril or disaster or other national emergency, or in order to preserve the neutrality of the United States, the President may suspend or amend, for such time as he may see fit, the rules and regulations applicable to any or all stations within the jurisdiction of the United States as prescribed by the licensing authority, and may cause the closing of any station for radio communication and the removal therefrom of its apparatus

and equipment, or he may authorize the use or control of any such station and/or its apparatus and equipment by any department of the Government under such regulations as he may prescribe, upon just compensation to the owners. Radio stations on board vessels of the United States Shipping Board or the United States Shipping Board Emergency Fleet Corporation or the Inland and Coastwise Waterways Service shall be subject to the provisions of this Act."

AND WHEREAS the Government departments using radio find it necessary for efficient operation to make some changes in previous frequency assignments to individual stations which will not add to the total number of frequencies assigned for Government use and have requested that such changes be authorized;

## Administration of the Foreign Service

The regulations established in this Executive order shall be effective and binding not only as Consular Regulations, but they shall be equally effective and binding for the following purposes:

(1) These rules and regulations shall constitute the regulations of the Department of State for the administration of the Foreign Service under the provisions of the act of February 23, 1931 (46 Stat. 1212), and shall be considered as superseding the regulations established in Executive Order No. 5189, dated September 11, 1929, and amendments thereto, which are hereby canceled. The Secretary of State is authorized to prescribe additional rules and regulations for the administration of the Foreign Service, not inconsistent herewith, and the use of the regulations in this order as regulations of the Department of State under different titles and numerical designations is hereby expressly authorized.

(2) These rules and regulations shall constitute amendments and additions to the Instructions to Diplomatic Officers and shall be in substitution for and effect the cancellation of all parts of the Instructions to Diplomatic Officers which cover the same subjects as these regulations, or which are inconsistent with these regulations. It is therefore ordered that these regulations shall be incorporated into the Instructions to Diplomatic Officers, in so far as they are applicable thereto; and express authorization is given for their use for this purpose under different titles and numerical designations and also appropriately to change references to consular officers or consular offices, wherever they occur, to refer to diplomatic officers or diplomatic missions.

All Executive orders and other regulations, or parts thereof, inconsistent with the provisions of this order, are hereby revoked.

Article I of the Consular Regulations, 1896, entitled "The Consular Branch of the Foreign Service," is hereby canceled and the following substituted:

### ARTICLE I

#### THE FOREIGN SERVICE

1. *Definition.* "Foreign Service officer" shall be deemed to denote permanent officers of the Foreign Service below the grade of minister. (Act of Feb. 23, 1931, sec. 9.)

2. *Entry into the Foreign Service.* Appointments to the position of Foreign Service officer shall be made after examination and officers so appointed shall serve a suitable period of probation in an unclassified grade, or, after five years of continuous service in an executive or a quasi-executive position in the Department

of State, by transfer therefrom to any class of the Foreign Service upon recommendation of the Board of Foreign Service Personnel and with the approval of the Secretary of State. An accurate record of the efficiency of all officers and employees of the Department of State is kept for this purpose. Reinstatement of Foreign Service officers separated from the classified service by reason of appointment to some other position in the Government may be made by Executive order of the President, except that the number of such officers reinstated shall not affect the number of the percentage of the class provided by law. (Act of Feb. 23, 1931, secs. 12, 14.)

All appointments of Foreign Service officers are by commission to a class and not by commission to any particular post, and such officers are assigned to posts and may be transferred from one post to another as the interests of the service may require. (Act of Feb. 23, 1931, sec. 12.)

New appointments to the service are made to the grade of Foreign Service officer, unclassified, but this provision does not apply to reinstatements or transfers from the Department of State under section 12 of the act of February 23, 1931.

3. *Examination for the Foreign Service.* There is hereby constituted a board of examiners, which shall conduct examinations to determine the eligibility of the candidates for the Foreign Service, composed as follows: Three Assistant Secretaries of State to be designated by the Secretary of State, the Chief of the Division of Foreign Service Personnel, and the Chief Examiner of the Civil Service Commission. Members of the board of examiners may, when necessary, designate other persons to serve for them on the board. The following rules are established for the conduct of examinations:

(a) It shall be the duty of the board of examiners to formulate rules for and hold examinations of applicants for commission to the Foreign Service and to determine from among the persons designated by the President for examination those who are fitted for appointment.

(b) The scope and method of the examinations shall be determined by the board of examiners, but among the subjects in which candidates will be examined shall be included the following: American history, government, and institutions since 1776; history of Europe, Latin America, and the Far East since 1776; elementary economics, including the natural, industrial, and commercial resources of the United States; political and commercial geography; elements of international, commercial, and maritime law; arithmetic as used in commercial statistics, tariff calculations, exchange and simple accounting; and modern languages—French, German, or Spanish.

(c) The examinations shall be both written and oral, except that American clerks and employees in the Foreign Service who have rendered satisfactory service in such capacities for the five years immediately preceding application for appointment as Foreign Service officers shall be exempted from the written examinations prescribed for other candidates.

(d) The right of clerks in the Foreign Service to exemption from the written examinations in accordance with paragraph (c) of this section shall be determined by the Board of Foreign Service Personnel after considering the written recommendations of the Division of Foreign Service Personnel in each case.

(e) Examinations shall be rated on a scale of 100, and no person rated at less than 80 shall be eligible for certification.

(f) No one shall be certified as eligible for appointment who

(1) Is under 21 or over 35 years of age (except American clerks and employees in the Foreign Service under 45 years of age on the date of certification who were, or are hereafter, appointed before reaching the age of 35, and American clerks and employees in the Foreign Service on July 1, 1931, who are certified for appointment before reaching the age of 45 years);

(2) Has not been a citizen of the United States for at least 15 years before date of certification;

(3) Is not of good character and habits;

(4) Is not physically, mentally, and temperamentally qualified for the proper performance of the duties of the Foreign Service;

(5) Has not been specially designated by the President to take the prescribed examinations to determine eligibility for appointment.

(g) Upon the conclusion of the examinations, the names of the candidates who shall have attained upon the whole examination the required rating will be certified by the board to the Secretary of State as eligible for appointment.

(h) The names of candidates will remain on the eligible list for two years, except in the case of such candidates as shall within that period be appointed or shall withdraw their names. Names which have been on the eligible list for two years will be dropped therefrom, and the candidates concerned will not again be eligible for appointment unless upon fresh application, designation anew for examination, and the successful passing of such examination.

(i) Applicants for appointment who are designated to take an examination and who fail to report therefor, shall not be entitled to take a subsequent examination unless they shall have been specifically designated to take such subsequent examination.

(j) In making designations to take the prescribed examinations to determine eligibility for appointment, and in appointments after examination, due regard will

be had to the principle that as between candidates of equal merit, appointments should be made so as to tend to secure proportional representation of all the States and Territories in the Foreign Service; and neither in the designation for examination, nor in certification, nor in appointment after examination, will the political affiliations of the candidates be considered.

(k) New appointments to the service shall be to the grade of Foreign Service officer, unclassified, and no promotions to a higher grade shall be made except in conformity with law and regulations with respect thereto (sections 2, 6, 7). This provision does not apply to reinstatements or transfers from the Department of State under section 12 of the act of February 23, 1931. (Act of Feb. 23, 1931, secs. 9, 31, and 32.)

4. *Classes and salaries in the Foreign Service.* The officers in the Foreign Service are graded and classified with the salaries of each class, as follows, but not exceeding in number for each class a proportion to the total number of officers in the service represented in the following percentage limitations:

Ambassadors and ministers, as provided by law.	
Class 1, 6 per centum,	\$9,000 to \$10,000.
Class 2, 7 per centum,	\$8,000 to \$8,900.
Class 3, 8 per centum,	\$7,000 to \$7,900.
Class 4, 9 per centum,	\$6,000 to \$6,900.
Class 5, 10 per centum,	\$5,000 to \$5,900.
Class 6, 14 per centum,	\$4,500 to \$4,900.
Class 7, -----	\$4,000 to \$4,400.
Class 8, -----	\$3,500 to \$3,900.
Unclassified, -----	\$2,500 to \$3,400.

(Act of Feb. 23, 1931, sec. 10.)

*Salary increases within classes.* Foreign Service officers having a rating of satisfactory or better who shall have been in classes 5, 6, 7, or 8 for a continuous period of nine months or more, shall, on the first day of each fiscal year, receive an increase in salary of \$100, except that no officer shall receive a salary above the maximum of his class; and all such officers in classes 1, 2, 3, or 4 shall in the same circumstances receive an increase of \$200. The Secretary of State is authorized to fix the salaries of Foreign Service officers in the unclassified grade within the salary range specified by law. The Secretary of State is also authorized, within the limits of appropriations therefor, to grant the Foreign Service officers in any class additional promotions in salary within the salary range established for the classes in which they are serving, based upon especially meritorious service. (Act of Feb. 23, 1931, sec. 33.)

5. *Promotions in class.* All Foreign Service officers are subject to promotion on merit. Vacancies in all classes from 1 to 8 are filled by promotions from lower

classes, based upon ability and efficiency as shown in the service. The Board of Foreign Service Personnel submits to the Secretary of State for his approval, and for transmission thereafter to the President, lists of Foreign Service officers whose efficiency ratings entitle them to advancement in the service and who are therefore recommended for promotion in the order of their ascertained merit within classes as provided in section 8 of these regulations. (Act of Feb. 23, 1931, secs. 9, 31, 32.)

The Secretary of State reports from time to time to the President, along with his recommendations, the names of those Foreign Service officers who by reason of efficient service have demonstrated special capacity for promotion to the grade of minister, and the names of those Foreign Service officers and clerks, and officers and employees in the Department of State, who by reason of efficient service, an accurate record of which shall be kept in the Department of State, have demonstrated special efficiency. (Act of Feb. 23, 1931, secs. 14, 31.)

See also section 6(b) and (d).

6. *Board of Foreign Service Personnel.* The Board of Foreign Service Personnel is composed of not more than three Assistant Secretaries of State designated by the Secretary of State, one of whom shall be the Assistant Secretary of State having supervision over the Division of Foreign Service Personnel, who shall be chairman. The Chief of the Division of Foreign Service Personnel and one other member of the division may attend the meetings of the board, and one of them shall act as secretary, but they shall not be entitled to vote in its proceedings. (Act of Feb. 23, 1931, sec. 31.)

It shall be the duty of the board:

(a) To consider and to submit to the Secretary of State for approval, lists of Foreign Service officers prepared in accordance with law by the Division of Foreign Service Personnel, in which all Foreign Service officers shall be graded in accordance with their relative efficiency and value to the service. All officers rated satisfactory or above shall be eligible for promotion in the order of merit to the minimum salary of the next higher class. (Act of Feb. 23, 1931, sec. 32.)

(b) To recommend promotions in the Foreign Service, and to furnish the Secretary of State with lists of Foreign Service officers who have demonstrated special capacity for promotion to the grade of minister. (Act of Feb. 23, 1931, secs. 14, 31.) Lists of officers recommended for promotion to the grade of minister shall enumerate the officers in the order of merit, and each list shall supersede all previous lists; such lists are submitted to the Secretary of State whenever there are vacancies in the grade of minister or when requested by the President or the Secretary of State.

(c) To submit to the Secretary of State for his approval, and for transmission thereafter to the President, the names of those officers and employees of the Department of State who, after five years of continuous service in an executive or quasi-executive position, are recommended for appointment by transfer to the position of Foreign Service officer. (Act of Feb. 23, 1931, sec. 12.)

(d) To submit to the Secretary of State the names of those Foreign Service officers who are recommended for designation as counselors of embassy or legation. (Act of Feb. 23, 1931, sec. 23.)

(e) To recommend to the Secretary of State the assignment of Foreign Service officers to posts and the transfer of such officers from one branch of the service to the other according to the needs of the service.

(f) To consider controversies and delinquencies among the service personnel and to recommend to the Secretary of State appropriate disciplinary action where required.

(g) To determine, for submission to the Secretary of State after considering recommendations of the Division of Foreign Service Personnel, that the efficiency rating of an officer is unsatisfactory, thereby meaning below the standard required for the service, in order that the Secretary of State may take appropriate action with respect to the separation from the Foreign Service of such unsatisfactory officers in accordance with law (see sections 9, 45). (Act of Feb. 23, 1931, sec. 33.)

The members of the board, individually and collectively, shall have authority to examine all records and data of the Division of Foreign Service Personnel. (Act of Feb. 23, 1931, sec. 32.)

All action taken by the board shall be strictly nonpartisan and based exclusively upon the records and ratings of efficiency of the officers concerned.

The proceedings of the board shall be strictly confidential, but the chairman shall, within a reasonable time prior to meetings of the board for considering and submitting to the Secretary of State the rating lists from which promotions will be made in accordance with section 32 of the act of February 23, 1931, invite the Chairman of the Senate Committee on Foreign Relations and the Chairman of the House Committee on Foreign Affairs, or some committee member designated by the chairman, to sit with the board through its deliberations without, however, participating in its decisions.

*7. Division of Foreign Service Personnel.* The Division of Foreign Service Personnel assembles, records, and is the custodian of all available information in regard to the character, ability, conduct, quality of work, industry, experience, dependability, and general availability of Foreign Service officers, including reports of inspecting officers and efficiency reports of supervising officers. All such informa-

tion is appraised at least once in two years; and the result of such appraisal expressed in terms of "excellent," "very good," "satisfactory," or "unsatisfactory," accompanied by a concise statement of the considerations upon which these terms are based, is entered upon records to be known as the efficiency records of the officers, and constitutes their efficiency ratings for the period. No charges against an officer that would adversely affect his efficiency rating or his value to the service, if true, are taken into consideration in determining his efficiency rating except after the officer shall have had opportunity to reply thereto. The Assistant Secretary of State supervising the Division of Foreign Service Personnel is responsible for the keeping of accurate and impartial efficiency records of Foreign Service officers and for taking all measures necessary to insure their accuracy and impartiality. Not later than November 1 at least every two years, the Division of Foreign Service Personnel, under the supervision of the Assistant Secretary of State, prepares a list in which all Foreign Service officers are graded in accordance with their relative efficiency and value to the service. In this list officers are graded as excellent, very good, satisfactory, or unsatisfactory, with such further subclassification as may be found necessary. All officers rated satisfactory or above are eligible for promotion in the order of merit to the minimum salary of the next higher class. This list does not become effective in so far as it affects promotion until it has been considered by the Board of Foreign Service Personnel hereinbefore provided for, and approved by the Secretary of State. This list shall not be changed before the next succeeding list of ratings is approved except in the case of extraordinary or conspicuously meritorious service or serious misconduct; and any change for such reasons shall be made only after consideration by the Board of Foreign Service Personnel and approval by the Secretary of State, and the reasons for such change when made shall be inscribed upon the efficiency records of the officers affected. From this list of all Foreign Service officers recommendations for promotion are made in the order of their ascertained merit within classes. Recommendations are also made, in order of merit, as shown by ratings in the examinations for appointment to the unclassified grade, with commissions also as diplomatic secretaries and vice consuls, of those who have successfully passed the examinations. All such recommendations are submitted to the Secretary of State for his consideration and, if he shall approve, for transmission to the President.

The correspondence and records of the Division of Foreign Service Personnel are confidential except to the President, the Secretary of State, the members of the Board of Foreign Service Personnel, the Assistant Secretary of State supervising the

division, and such of its employees as may be assigned to work on such correspondence and records. (Act of Feb. 23, 1931, sec. 32.)

No Foreign Service officer below class 1 shall be assigned for duty in the Division of Foreign Service Personnel. Foreign Service officers assigned to the division shall not be eligible for recommendation by the Board of Foreign Service Personnel for promotion to the grade of minister or ambassador during the period of such assignment or for three years thereafter, nor shall such officers be given any authority, except of a purely advisory character, over promotions, demotions, transfers, or separations from the service of Foreign Service officers. (Act of Feb. 23, 1931, sec. 31.)

8. *Foreign Service officers' training school.* There is hereby established in the Department of State a Foreign Service officers' training school for the instruction of new appointees.

The Foreign Service officers' training school shall be under the direction of a board composed of the following members, to wit: The Assistant Secretaries of State composing the Board of Foreign Service Personnel, one Foreign Service officer assigned for duty in the Division of Foreign Service Personnel, and the director of the Foreign Service officers' training school. The board will act in all matters with the approval of the Secretary of State.

The director of the school shall be selected by the other members of the school board from among the officers of the Foreign Service, with the approval of the Secretary of State.

Instructors shall be selected from among the qualified officers of the Department of State, the Foreign Service, other executive departments of the Government, and any available sources, in the discretion of the school board.

The term of instruction in the Foreign Service officers' training school shall be considered a period of probation during which the new appointees are to be judged as to their qualifications for advancement and assignment to duty. At the end of the term, recommendations shall be made to the Secretary of State by the Board of Foreign Service Personnel for the dismissal of any who may have failed to meet the required standard of the service.

The Secretary of State is authorized to prescribe rules and regulations for the governance of the Foreign Service officers' training school.

9. *Separation from the service.* Whenever it is determined that the efficiency rating of an officer is unsatisfactory, thereby meaning below the standards required for the service, and such determination has been confirmed by the Secretary of State after notice and hearing as provided by law, such officer shall be separated from the

service in accordance with the provisions of section 45 of these regulations. (Act of Feb. 23, 1931, sec. 33.)

10. *Appointments of secretaries in the diplomatic service and consular officers.* The President nominates, and by and with the advice and consent of the Senate, appoints secretaries in the diplomatic service, consuls general, consuls, vice consuls of career, and language officers. (U. S. Constitution, Art. II, sec. 2.) Vice consuls not of career and consular agents are appointed by the Secretary of State.

Foreign Service officers may be appointed as secretaries in the diplomatic service or as consular officers, or both, but all such appointments are made by and with the advice and consent of the Senate. (Act of Feb. 23, 1931, sec. 11.)

11. *Assignment to duty of Foreign Service officers.* Foreign Service officers may be assigned to duty as either diplomatic or consular officers, or both, at the discretion of the President. (Act of Feb. 23, 1931, sec. 11.)

Within the discretion of the President, any Foreign Service officer may be assigned to act as commissioner, chargé d'affaires, minister resident, or diplomatic agent for such period as the public interests may require without loss of grade, class, or salary. However, no such officer shall receive more than one salary. (Act of Feb. 23, 1931, sec. 24.)

Any Foreign Service officer may be assigned for duty in the Department of State without loss of class or salary, such assignment to be for a period of not more than three years, unless the public interests demand further service, when such assignment may be extended for a period not to exceed one year. Any ambassador or minister or any Foreign Service officer of whatever class detailed for duty in connection with trade conferences or international gatherings, congresses, or conferences, or for other special duty not at his post or in the Department of State, except temporarily for purposes of consultation, shall be paid his salary and expenses for travel and subsistence at the rates prescribed by law. (Act of Feb. 23, 1931, sec. 21.)

12. *Official acts of Foreign Service officers.* All official acts of Foreign Service officers while serving under diplomatic or consular commissions in the Foreign Service shall be performed under their respective commissions as secretaries or as consular officers. (Act of Feb. 23, 1931, sec. 11.)

13. *Oath of office.* Whenever any person is appointed to any office of honor or trust under the Government of the United States he shall, before entering upon the duties of his office, take and subscribe to the following oath: "I, A B, do solemnly swear (or affirm) that I will support and defend the Constitution of the United States against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely, without any mental reservation or

purpose of evasion; and that I will well and faithfully discharge the duties of the office on which I am about to enter. So help me God." (R.S. 1757; U.S.C. title 5, sec. 16.)

The foregoing requirement applies to all Foreign Service officers, secretaries in the diplomatic service, consuls general, consuls, vice consuls, language officers, and, if citizens of the United States, to consular agents.

The oath of office may be taken before any officer who is authorized, either by the laws of the United States or by the local municipal law, to administer oaths in the State, Territory, or District where such oath may be administered. (R.S. 1758; U.S.C. title 5, sec. 18.) The oath may not, however, be taken abroad except before some officer of the United States authorized to administer oaths.

14. *Bonds of officers in the Foreign Service.* Every secretary, consul general, consul, vice consul of career, or Foreign Service officer, before he receives his commission or enters upon the duties of his office, shall give to the United States a bond, in such form as the President shall prescribe, with such sureties, who shall be permanent residents of the United States, as the Secretary of State shall approve, in a penal sum not less than the annual compensation allowed to such officer, conditioned for the true and faithful accounting for, paying over, and delivering up of all fees, moneys, goods, effects, books, records, papers, and other property which shall come to his hands or to the hands of any other person to his use as such officer under any law now or hereafter enacted, and for the true and faithful performance of all other duties now or hereafter lawfully imposed upon him as such officer. Such bond shall cover by its stipulations all official acts of such officer, whether commissioned as diplomatic or consular officer or Foreign Service officer. (Act of Feb. 23, 1931, sec. 16.)

*Bonds of vice consuls not of career.* Vice consuls not of career shall give bond, with such sureties and stipulations as the Secretary of State may direct.

*Bonds of consular agents.* No bond is required of consular agents, but a consular officer having an agent under his supervision may take from him such bond as the officer may deem proper to protect himself.

15. *Custody, withdrawal, and cancellation of bonds, and sureties on bonds.* The bonds of Foreign Service officers and the bonds of other consular officers are deposited, after their approval by the Secretary of State, with the Secretary of the Treasury. (Act of Feb. 23, 1931, sec. 16.)

*Withdrawal and cancellation of bonds.* Under the rule of the Treasury Department, bonds, when filed with it, can not be withdrawn from its custody; and they are not canceled on the retirement of the officer from the service.

*Sureties on bonds.* The sureties on bonds of salaried officers shall be permanent residents of the United States or a regularly authorized surety company incorporated under the laws of the United States or of one of the States, and must be approved by the Secretary of State. (28 Stat. L. 279.) Married women will not be accepted as sureties. (15 Op. Att. Gen. 472.)

16. *Foreign Service inspectors.* The provisions of section 4 of the act of April 5, 1906, relative to the powers, duties, and prerogatives of consuls general at large are applicable to the Foreign Service officers detailed for the purpose of inspection, who shall, under the direction of the Secretary of State, inspect in a substantially uniform manner the work of diplomatic and consular offices. (Act of Feb. 23, 1931, sec. 17.)

Each consular office shall be inspected at least once in every two years. Whenever the President has reason to believe that the business of a consulate or a consulate general is not being properly conducted and that it is necessary for the public interest, he may authorize any inspector to suspend the principal consular officer and administer the office in his stead for a period of not exceeding 90 days. In such case the inspector so authorized shall have power to suspend any subordinate officer or clerk in said office during the period aforesaid. (34 Stat. L. 100; U.S.C. title 22, sec. 9.)

The suggestions and directions given by a Foreign Service inspector at the time of any inspection of an office must be implicitly followed and obeyed, in the absence of contrary instructions from the Department of State. The principal officer will insure that the consular agents under his supervision comply with the inspector's directions left with them. He will also bring the inspector's directions to the attention of his successor in office.

An officer, upon assuming charge of an office, will accept the suggestions and instructions left for his predecessor as applicable to himself and to his own administration of the office.

17. *Language officers.* Language officers are Foreign Service officers appointed from the unclassified grade and assigned to certain countries for the purpose of studying and perfecting themselves in prescribed foreign languages. After passing the required examinations and receiving therefor the promotions to which they are entitled, the officers are thereafter eligible for advancement in the service, without further examinations, on the same basis as all other Foreign Service officers.

18. *Provisions of law in force after July 1, 1931.* All provisions of law in effect prior to July 1, 1931, relating to diplomatic or consular officers, or to Foreign Service officers, which are not inconsistent with the act of February 23, 1931, entitled "An act for the grading and classification of clerks in the Foreign Service of the United State of America, and providing compensation therefor," which included provisions

relating to the organization and duties of the Foreign Service of the United States of America, are applicable to Foreign Service officers when they are designated for service as diplomatic or as consular officers. (Act of Feb. 23, 1931, sec. 28.)

GENERAL PROVISIONS CONCERNING CONSULAR OFFICERS

19. *Official designations of consular officers.* Consular officers comprise (1) Foreign Service officers assigned to duty as consuls general, consuls, vice consuls, and language officers; and (2) noncareer officers, commissioned or appointed by the Secretary of State, viz, vice consuls not of career and consular agents.

20. *Definitions.* The term "consular officer" shall be deemed to include consuls general, consuls, vice consuls, and consular agents, and none others. (38 Stat. L. 806; U.S.C. title 22, sec. 51.)

The terms "consul general" and "consul" shall be deemed to denote full, principal, and permanent consular officers as distinguished from subordinates and substitutes. (38 Stat. L. 806; U.S.C. title 22, sec. 51.)

The term "consul," whenever the sense so requires, denotes any principal consular officer or any person invested by the United States with, and exercising, the functions of consul general, consul, or vice consul. (19 Stat. L. 2; U.S.C. title 22, sec. 178.) As ordinarily used, in a specific sense, it denotes a particular grade of consular officer, but it is sometimes used, in a generic sense, to embrace all consular officers. (15 C. Cls. R. 74.)

The term "vice consul" denotes any officer holding a commission as vice consul, whether he be a Foreign Service officer or not. (38 Stat. L. 806; U.S.C. title 22, sec. 51)

The term "substitute consular officers" denotes vice consuls when in responsible charge of a consulate general or consulate. (38 Stat. L. 806; U.S.C. title 22, sec. 51.)

The term "subordinate consular officers" denotes vice consuls when not in charge of consulates general or consulates, and consular agents. (38 Stat. L. 806; U.S.C. title 22, sec. 51.)

21. *Vice consuls.* There are two categories of vice consuls, those of career and those who are not of career. The former are Foreign Service officers commissioned by the President as vice consuls; the latter are commissioned by the Secretary of State as occasion may require, usually from among the clerks at consular offices, and receive compensation as clerks and not as vice consuls.

All vice consuls are consular officers subordinate to principal consular officers (consuls general and consuls), exercising and performing the duties within the limits of their consulates at the same, or at different, points and places from those at which the principals are located. (38 Stat. L. 806; U.S.C. title 22, sec. 51; 33 Fed. Rep. 167.)

Vice consuls, whether of career or not, perform such duties of the consular offices to which they may be assigned as are described in the Consular Regulations and laws of the United States, and which they may be directed to perform by the principal officer under whom they serve. When the principal officer is absent, the ranking consular officer, or, if there be two of equal grade, the one whose commission at the post bears the earlier date, in the absence of contrary instructions from the Department of State, will assume full charge of the office under his bond.

22. *Vice consuls not of career.* Vice consuls not of career are not eligible to appointment as Foreign Service officers without undergoing the prescribed examination and qualifying therefor, but such vice consuls who are clerks in the Foreign Service are eligible to advancement in accordance with section 24. They are appointed to particular posts and receive certificates of appointment to those posts, which are forwarded to them through the appropriate diplomatic missions.

*Citizenship.* Every vice consul must be an American citizen. (40 Stat. L. 1333.)

*Removal of vice consuls.* Consuls general and consuls have no power to remove vice consuls assigned to their offices or to service under their supervision. In cases of serious insubordination, threatened destruction or loss of Government property, or conduct likely to injure the reputation of the consulate, the principal consular officer may order the vice consul responsible therefor to perform no official duties pending a review of the facts by the Secretary of State. Formal suspensions can be made only upon prior authorization by the Secretary of State, but such authorization may be requested by telegram whenever an emergency is deemed to exist. A report of the facts, accompanied by a signed statement of the vice consul in his own behalf, will be forwarded by the most expeditious method.

23. *Consular agents.* Consular agents are appointed by the Secretary of State, usually upon the nomination of the principal consular officer. The practice of making such nominations must not be construed to limit the authority of the Secretary of State to appoint these officers without such previous nomination by the principal officer.

The term "consular agents" denotes consular officers subordinate to principal officers exercising the powers vested in them and performing the duties prescribed for them by regulation of the President, at posts or places different from those at which such principals are located. (38 Stat. L. 806; U.S.C. title 22, sec. 51.) Their functions are not, in all respects, as extensive as those of the principal officer. Though they act at places different from the seat of the principal office and their duties are in substance the same toward persons desiring consular services, they act only as the representative of the principal, and are subject and subordinate to him. They

are not authorized to correspond with the Department of State, unless through the principal or under exceptional circumstances; they make no returns or reports directly to the department, and they are not permitted to render accounts or make any drafts for expenditures on the departments of the Government unless under express instructions.

Consular agents are subject, like other consular officers, to the provisions of law and the instructions of the Department of State. As soon as a consular agent has entered upon his duties, a specimen of his signature and an impression of his official seal should be sent to the department.

*Citizenship of consular agents.* In all cases where it is practicable, consular agents should be citizens of the United States, and none other should be recommended for appointment unless citizens of proper character and standing can not be found.

*Acting consular agents.* No consular agent has authority to appoint a subagent. In case of emergency, or in the absence of the consular agent on leave, the principal consular officer may designate, with the approval of the Department of State, a suitable person to perform the duties under the title of "acting consular agent." The principal consular officer should, at the time the change is made, report to the department the name of the person whom he has designated as acting consular agent during the temporary absence of the agent from his post, and should accompany the report with the signature of the substitute and an impression of the official seal of the agency.

A person placed temporarily in charge of a consular agency should sign as acting consular agent. Acting consular agents must not perform notarial acts.

24. *Clerks at consulates.* Clerks at consulates are, so far as practicable, appointed under civil-service rules and regulations. (43 Stat. L. 1017; U.S.C. title 22, sec. 56.) They are frequently nominated by the consuls, but their appointment is subject to approval by the Secretary of State, and the department may fill such clerkships directly by appointment from the United States or from American citizens abroad. In nominating persons for clerkships, consuls must give the qualifications of the nominees in the form prescribed by the department, together with the proposed amount of compensation of each clerk and the allowance from which paid. No clerk shall receive increased compensation without the authority of the Secretary of State. All consular clerks shall be clerks in the Foreign Service of the United States of America and shall be graded and classified in the following manner:

Clerks in the Foreign Service of the United States of America shall receive, within the limitation of such appropriations as the Congress may make, the basic compensations specified below:

*Senior clerks.* Class 1, \$4,000; class 2, \$3,750; class 3, \$3,500; class 4, \$3,250; class 5, \$3,000. Commissions as senior clerks will be issued to such clerks by the Secretary of State.

*Junior clerks.* Class 1, \$2,750; class 2, \$2,500; class 3, all clerks whose compensation as fixed by the Secretary of State is less than \$2,500 per annum.

Appointments to the grade of senior clerk and advancement from class to class in that grade shall hereafter be by promotion for efficient service; and no one shall be promoted to the grade of senior clerk who is not an American citizen and has not served as a clerk in a diplomatic mission or a consulate, or both, or as a clerk in the Department of State for at least five years.

The Secretary of State is authorized, at posts where in his judgment it is required by the public interests for the purpose of meeting the unusual or excessive costs of living ascertained by him to exist, to grant compensation to clerks assigned there in addition to the basic rates herein specified, within such appropriations as Congress may make for such purpose.

No clerk who is not an American citizen shall hereafter be appointed to serve in a diplomatic mission. (Act of Feb. 23, 1931, secs. 1-4.)

*Citizenship of clerks.* Preference shall be given to American citizens in nominations for clerkships whenever properly qualified persons can be found.

*Oath of office.* All American clerks are required to take an oath of office.

*Members of consular officer's family.* The appointment of members of a consular officer's family in his office will be permitted only in exceptional cases where the expediency of such an appointment and the qualifications of the applicant are clearly shown.

*Changes in clerical personnel.* Consular officers must report promptly to the department every change in the clerical personnel of their offices.

*Efficiency reports and records.* The department maintains a system of efficiency reports and records applying to clerks, messengers, and other noncareer subordinates including consular agents, which shall be the basis of promotion.

*Confidential nature of reports and recommendations.* The efficiency records of clerks and other subordinates are strictly confidential, and no efficiency report or rating is to be divulged by any consular officer except to Foreign Service inspectors and supervising consuls general, or persons specially authorized by the department.

*Clerks commissioned as vice consuls.* A clerk at a consulate will be commissioned as vice consul only when conditions at the post make an additional signing officer necessary.

25. *Prohibition against engaging in business.* No consular officer whose salary exceeds \$1,000 a year shall, while he holds his office, be interested in or transact any business as a merchant, factor, broker, or other trader, or as a clerk or other agent for any such person to, from, or within the port, place, or limits of his jurisdiction, directly or indirectly, either in his own name or in the name or through the agency of any other person; nor shall he practice as a lawyer for compensation or be interested in the fees or compensation of any lawyer; and he shall in his official bond stipulate as a condition thereof not to violate this prohibition. (34 Stat. L. 101; U.S.C. title 22, secs. 106, 107, 108.)

No consular officer whose salary exceeds \$1,000 per annum shall make any investments of money within the limits of the country from the government of which he has received his recognition or exequatur. This prohibition applies to the owning of real estate, or of bonds, shares, stocks, mortgages, etc. There is no objection to a consular officer's depositing money in a bank which happens to give interest on current accounts or fixed deposits; and a consular officer may buy a house and land for his own use, but he may not do so as an investment or speculation.

26. *Jurisdiction of consuls general.* All consuls general are charged with the ordinary duties of a consul within the prescribed limits of their respective districts.

27. *Limits of consular districts.* The statute authorizes the President to define the extent of country to be embraced within any consulate. (R.S. 1695; U.S.C. title 22, sec. 55.) The consular commission usually describes these limits as including all places nearer to the official residence of a consul than to the residence of any other consul within the same allegiance. This is to be regarded as the rule by which the limits of the respective districts are to be determined in the absence of instructions specifically defining the consular district. In no case, however, is a consular officer authorized, except under special authorization from the Department of State, to take jurisdiction of consular business outside of the State from the government of which he receives his exequatur. The Department of State may, however, in its discretion, provide that a consular agency shall conduct its business under the supervision of a consular office in the same country without regard to nearness of geographical situation. The limits of a consular agency are always within the district of the consulate to which it is attached, unless the department shall determine otherwise.

28. *Neglect of duty or misconduct.* Whenever any consular officer willfully neglects or omits to perform seasonably any duty imposed upon him by law, or by any order or instruction made or given in pursuance of law, or is guilty of any willful malfeasance or abuse of power, or of any corrupt conduct in his office, he shall be liable to all persons injured by any such neglect, or omission, malfeasance, abuse, or corrupt

conduct, for all damages occasioned thereby; and for all such damages, he and his sureties upon his official bond shall be responsible thereon to the full amount of the penalty thereof, to be sued in the name of the United States for the use of the person injured. Such suit, however, shall in no case prejudice, but shall be held in entire subordination to, the interest, claims, and demands of the United States as against any officer, under such bond, for every willful act of malfeasance or corrupt conduct in his office. (R.S. 1735; U.S.C. title 22, sec. 103.)

Article II of the Consular Regulations, 1896, entitled "Retirement of Foreign Service Officers," is hereby canceled and the following substituted:

#### ARTICLE II

##### RETIREMENT OF FOREIGN SERVICE OFFICERS

31. *Retirement of Foreign Service officers provided by law.* The law provides for the retirement of Foreign Service officers on account of age or disability and authorizes the President to prescribe rules and regulations to give effect to the statute. The administration of the retirement system is placed under the direction of the Secretary of State. (Act of Feb. 23, 1931, sec. 26.)

32. *Retirement on account of age or length of service.* When any Foreign Service officer has reached the age of 65 years and rendered at least 15 years of service, he shall be retired; and if any such officer shall have served 30 years, he may be retired at his own request before reaching the age of 65 years. The President may in his discretion retain any such officer on active duty for such period prior to his reaching 70 years of age as he may deem for the interests of the United States. (Act of Feb. 23, 1931, sec. 26d.)

33. *Retirement on account of disability.* Any Foreign Service officer who before reaching the age of retirement becomes totally disabled for useful and efficient service by reason of disease or injury not due to vicious habits, intemperance, or willful misconduct on his part, shall, upon his own application or upon order of the President, be retired on an annuity. In each case such disability is determined by the report of a duly qualified physician or surgeon designated by the Secretary of State to conduct the examination. Unless the disability be permanent, a like examination is made annually in order to determine the degree of disability, and the payment of annuity ceases from the date of the medical examination showing recovery. The officer may thereupon be reassigned to active duty.

Fees for examinations under this provision, together with reasonable traveling and other expenses incurred in order to submit to examination, are paid out of the Foreign Service retirement and disability fund. (Act of Feb. 23, 1931, sec. 26j.)

34. *Ambassadors, ministers, and persons appointed to the department.* Any diplomatic secretary or consular officer who has been or any Foreign Service officer who may hereafter be promoted from the classified service to the grade of ambassador or minister, or appointed to a position in the Department of State, shall be entitled to retirement in the same manner and under the same conditions as Foreign Service officers, and any officer included under the act of May 24, 1924, and the amendment thereto of July 3, 1926, shall be entitled to the benefits of the retirement provisions of the act of February 23, 1931. (Act of Feb. 23, 1931, sec. 26n.)

35. *Period of service.* The period of service is computed from the date of original oath of office as diplomatic secretary, consul general, consul, vice consul, deputy consul, consular assistant, consular agent, commercial agent, interpreter, or student interpreter, and includes periods of service at different times as either a diplomatic or a consular officer, or while on assignment to the Department of State, or on special duty or service in another department or establishment of the Government, but all periods of separation from the service and so much of any period of leave of absence without pay as may exceed six months are excluded. Service in the Department of State or as clerk in a mission or consulate prior to appointment as a Foreign Service officer may be included in the period of service. (Act of Feb. 23, 1931, sec. 26o.)

The President is authorized from time to time to establish, by Executive order, a list of places which by reason of climatic or other extreme conditions are to be classed as unhealthful posts; and each year of duty subsequent to January 1, 1900, at such posts, inclusive of regular leaves of absence, of officers already retired or hereafter retired, shall be counted as one year and a half, and so on in like proportion in reckoning the length of service for the purpose of retirement, fractional months being considered as full months in computing such service. The President may at any time cancel the designation of any places as unhealthful without affecting any credit which has accrued for service at such posts prior to the date of the cancellation. (Act of Feb. 23, 1931, sec. 26k.)

36. *Foreign Service retirement and disability fund.* Five per centum of the basic salary of all Foreign Service officers eligible to retirement is contributed to the Foreign Service retirement and disability fund, and the Secretary of the Treasury causes such deductions to be made and the sums to be transferred on the books of the Treasury Department to the credit of the Foreign Service retirement and disability fund for the payment of annuities, refunds, and allowances.

All basic salaries in excess of \$10,000 per annum shall be treated as \$10,000. (Act of Feb. 23, 1931, sec. 26c.)

In case service in the Department of State or as clerk in a mission or consulate prior to appointment as Foreign Service officer is included in the period of service, the officer shall pay into the Foreign Service retirement and disability fund a special contribution equal to five per centum of his annual salary for each year of such employment, with interest thereon to the date of payment compounded annually at four per centum, but such special contribution shall be subject to the limitations established by section 26f of the act of February 23, 1931. (Act of Feb. 23, 1931, sec. 26o.)

The Secretary of State submits annually a comparative report showing all receipts and disbursements on account of refunds, allowances, and annuities, together with the total number of persons receiving annuities and the amounts paid them, and also submits annually estimates of appropriations necessary to continue the retirement and disability system in full force. The law provides that in no event shall the aggregate total appropriations exceed the aggregate total of the contributions of the Foreign Service officers theretofore made, and accumulated interest thereon. (Act of Feb. 23, 1931, sec. 26a.)

The Secretary of the Treasury invests from time to time in interest-bearing securities of the United States such portions of the Foreign Service retirement and disability fund as in his judgment may not be immediately required for the payment of annuities, refunds, and allowances, and the income derived from such investments constitutes a part of said fund. (Act of Feb. 23, 1931, sec. 26g.)

37. *Period of contribution.* Those officers who retire before having contributed for each year of service shall have withheld from their annuities to the credit of the Foreign Service retirement and disability fund such proportion of five per centum thereof as the number of years in which they did not contribute bears to the total length of service; but no deductions shall be made from the annuities of officers who have contributed 30 years, and no officer shall be required to contribute more than 30 years in any circumstances. (Act of Feb. 23, 1931, sec. 26f.)

38. *Annuities.* Annuities are paid to retired and disabled Foreign Service officers under the following classification, based upon length of service, and at the following percentages of the average annual basic salary for the 10 years next preceding the date of retirement:

Class A, 30 years or more, 60 per centum,  
Class B, from 27 to 30 years, 54 per centum,  
Class C, from 24 to 27 years, 48 per centum,  
Class D, from 21 to 24 years, 42 per centum,  
Class E, from 18 to 21 years, 36 per centum,  
Class F, from 15 to 18 years, 30 per centum.

In computing the average annual basic salary for the 10 years next preceding the date of retirement, so much of an officer's service as was rendered prior to July 1, 1924, in accordance with the classification and salaries established by laws then in effect, as it is possible to credit to him by applying to all such periods of service rendered prior to July 1, 1924, the rules for corresponding classes in the reclassification provisions in section 7 of the act of May 24, 1924, shall be considered as having been performed in accordance with the classifications and salaries established for Foreign Service officers in section 3 of the act of May 24, 1924; but increases in annuities effected on July 1, 1931, under this provision shall not operate retroactively, and the provisions shall not be interpreted as reducing the rate of annuity received by any retired officer on July 1, 1931. (Act of Feb. 23, 1931, sec. 26e.)

39. *Separation from service before retirement.* Whenever a Foreign Service officer becomes separated from the service, except for disability before reaching the age of retirement, or under section 33 of the act of February 23, 1931, the total amount of contribution from his salary with interest thereon at 4 per centum per annum compounded annually up to the date of such separation shall be returned to him. (Act of Feb. 23, 1931, sec. 26l.)

40. *Death before retirement.* In case a Foreign Service officer dies without having reached the retirement age, the total amount of his contribution with accrued interest is paid to his legal representatives. (Act of Feb. 23, 1931, sec. 26i.)

41. *Death of annuitants.* In case an annuitant dies without having received in annuities an amount equal to the total amount of his contributions from salary with interest thereon at 4 per centum per annum compounded annually up to the time of his death, the excess of said accumulated contribution over the said annuity payments is paid to his or her legal representatives. (Act of Feb. 23, 1931, sec. 26i.)

42. *Discontinuance of annuity.* When an annuity is discontinued before the annuitant has received a sum equal to the total amount of his contributions with accrued interest, the difference is paid to him or to his legal representatives. (Act of Feb. 23, 1931, sec. 26j.)

43. *Retirement and disability moneys not subject to legal process.* None of the moneys mentioned in section 18 of the act of May 24, 1924, or section 26 of the act of February 23, 1931, are assignable, either in law or in equity, or subject to execution, levy, or attachment, garnishment, or other legal process. (Act of Feb. 23, 1931, sec. 26h.)

44. *Recall to service.* In the event of public emergency any retired Foreign Service officer may be recalled temporarily to active service by the President, and while so

serving he is entitled in lieu of his retirement allowance to the full pay of the class in which he is temporarily serving. (Act of Feb. 23, 1931, sec. 27.)

45. *Involuntary separation from service.* The Secretary of State is hereby authorized to promulgate rules of procedure for the separation of Foreign Service officers from the Foreign Service, in accordance with the conditions hereinafter prescribed, and also to take all measures necessary to insure equitable administration thereof, in conformity with the purposes of section 33 of the act of February 23, 1931. Foreign Service officers so separated from the Foreign Service shall be retired from the service, after a hearing by the Secretary of State, upon an annuity equal to 25 per centum of his salary at the time of retirement in the case of officers over 45 years of age, or in the case of officers under 45 years of age, with a bonus of one year's salary at the time of his retirement, either annuity or one year's salary to be payable out of the Foreign Service officers' retirement and disability fund and except as herein provided, subject to the same provisions and limitations as other annuities payable out of such funds; but no return of contributions shall be made under paragraphs (i) or (l) of section 26 of the act of February 23, 1931, in the case of any Foreign Service officer retired under the provisions of this section. Whenever it is determined that the efficiency rating of an officer is unsatisfactory, thereby meaning below the standard required for the service, and such determination has been confirmed by the Secretary of State, the officer shall be notified thereof; and if, after a reasonable period to be determined by the circumstances in each particular case, the rating of such officer continues to be found unsatisfactory and such finding is confirmed by the Secretary of State after a hearing accorded the officer, such officer shall be separated from the service with the annuity or bonus provided in this section, but no officer so separated from the service shall receive the said annuity or bonus unless at the time of separation he shall have served at least 15 years. He shall, however, if he has not served at least 15 years, have returned to him the full sum of his contribution to the annuity fund, with interest thereon at 4 per centum compounded annually. The benefits of this section, except at the option of the Secretary of State the return of an officer's contribution to the annuity fund, shall not be given to Foreign Service officers separated from the Foreign Service on account of malfeasance in office. (Act of Feb. 23, 1931, sec. 33.)

Sections 465 to 473, inclusive, of the Consular Regulations, 1896, are hereby canceled and the following substituted:

## LEAVES OF ABSENCE

465. *Absence must be reported.* All absences of consular officers and employees from their posts, whether by leave or otherwise, must be reported to the Secretary of State and will be regarded as part of the leave of absence authorized by law, during which such officers and employees may be absent without loss of salary, except as otherwise provided in these regulations. (12 Op. Att. Gen. 410.)

466. *Absence without leave.* No consular officer may be absent from his post or the performance of his duties for more than 10 days at any one time without obtaining permission from the President through the Secretary of State. (18 Stat. L. 77; U.S.C. title 22, sec. 124; 14 Op. Att. Gen. 534.) This provision permitting emergency absence for not to exceed 10 days is intended to relieve those cases of sudden emergency in which there is not sufficient time for communicating with the Secretary of State without endangering the health or affairs of the officer.

No Foreign Service officer shall be absent from his post with pay for more than 48 hours without permission, except as authorized in these regulations (secs. 465-474). (Act of Feb. 23, 1931, sec. 22.)

467. *Conditions under which leaves of absence are granted.* Leave of absence is granted, within statutory limitations, at the discretion of the President, acting through the Secretary of State. Leaves of absence are of three kinds: simple leave, leave with permission to visit the United States, and sick leave. A consular officer must receive express permission to return to the United States, in order that he may be entitled to the benefit of the statutory allowance of salary in transit.

(a) *Simple leave and home leave.* The Secretary of State is authorized to grant to any officer or employee of the Foreign Service who is an American citizen, in accordance with law and subject to such rules as may be established in the interests of and with due regard for the exigencies of the service, not to exceed 60 days annual leave of absence with pay. If such officer or employee returns to the United States, the leave of absence granted shall be exclusive of the time actually and necessarily occupied in going to his residence or destination in the United States and in returning to his post by the most direct route, and such time as may be necessarily occupied in awaiting sailing. Any portion of 60 days annual leave not granted or availed of in any one year may be cumulative, not to exceed, exclusive of time in transit and awaiting sailing, 120 days in three years or 180 days in four years. (Act of Feb. 23, 1931, sec. 22.)

(b) *Employees not American citizens.* Employees, not American citizens, may be granted not to exceed 30 days leave of absence with pay in any one year. (Act of Feb. 23, 1931, sec. 22.) Such leave shall not be cumulative.

(c) *Leave on account of illness.* The Secretary of State is also authorized to grant to any officer or employee of the Foreign Service on account of personal illness or on account of exposure to a contagious disease which would render presence at a post of duty hazardous to the health of fellow employees, sick leave of absence with pay at the rate of 15 days a year, the unused portion of such sick leave to be cumulative not to exceed 120 days. (Act of Feb. 23, 1931, sec. 22.)

(d) *Leave without compensation.* If consistent with the public interest, leave of absence for good reason may be granted without compensation for a longer time than that stipulated in these regulations for leave of absence with pay.

(e) *Transit period.* Salary will not be paid for more than one transit period in any one calendar year (10 Comp. Dec. 465; 11 Comp. Dec. 123) except that when all or a part of a transit period occurs in a calendar year other than that in which the leave of absence was taken, it will not impair the right of the consular officer to another transit period during that calendar year if leave should be granted. (14 Comp. Dec. 61.)

468. *Leave of absence discretionary with President.* The statutes limit the period of a consular officer's or employee's absence from his post, but do not require that he be given leave of absence each year. (Act of Feb. 23, 1931, sec. 22.) The President, acting through the Department of State, will determine in each case whether an officer or employee may be absent.

469. *Applications for leave of absence.* Every application for leave of absence shall contain full information with respect to the number of days and the character of all leave of absence taken by the applicant during the preceding calendar year and for any prior years which are the basis of a request to be granted accumulated leave, and reference will always be made to official correspondence relating to previous leaves of absence shown in the application. Every such application will state specifically whether the applicant wishes to come to the United States (see section 467).

470. *Home leave under orders.* The Secretary of State is authorized, whenever he deems it to be in the public interest, to order to the United States on his statutory leave of absence any Foreign Service officer or vice consul of career who has performed three years or more of continuous service abroad. The expenses of transportation and subsistence of such officers and their immediate families, in traveling from their posts to their homes in the United States and return, shall be paid under the same rules and regulations applicable in the case of officers going to and returning from their posts under orders of the Secretary of State when not on leave. While in the United States the services of such officers shall be avail-

able for trade-conference work or for such duties in the Department of State as the Secretary of State may prescribe, but the time of such work or duties shall not be counted as leave. (Act of Feb. 23, 1931, sec. 22.)

471. *Canceled by Executive order of September 11, 1923.*

472. *Leave of absence of vice consuls.* The regulations in regard to leaves of absence of principal consular officers are applicable to vice consuls of career and also, with the exception of provisions of section 470, to vice consuls not of career, provided that the Secretary of State is authorized to establish rules and to issue instructions consistent with law, and with due regard for the needs of the service, to permit principal officers to grant leave of absence to vice consuls attached to their offices.

Applications for leave of absence by vice consuls of career will be addressed to the Secretary of State and will be transmitted through, and have the approval of, their principal officers. Vice consuls not of career will make application to their principal officers, who will address any necessary communications to the Secretary of State. In cases of emergency a principal officer may grant any vice consul leave, reporting the fact to the Secretary of State and procuring subsequent approval of the action taken.

When a vice consul is in charge of an office, he should apply to the Secretary of State for leave in the same manner as if he were the principal. If there is no commissioned officer at the post to take charge, the fact should be reported to the department, by telegraph if necessary, for its consideration. In no circumstances should a consular office, without previous specific authority granted by the department, be left in the charge of any person other than a duly commissioned and bonded American consular officer.

473. *Leave of absence of clerks.* The regulations in regard to leave of absence of principal consular officers, with the exception of provisions of section 470, are applicable to clerks and other employees in consular offices who are American citizens, except that the Secretary of State is authorized to establish rules and issue instructions consistent with law, and with due regard for the needs of the service, to permit principal officers to grant leave of absence, within the provisions of the law and these regulations, to such clerks and employees in their offices.

Clerks and other employees in consular offices who are not American citizens may be granted leave of absence within statutory limits (see section 467) by their principal officers, who shall report the facts to the Secretary of State as required by section 465.

In granting leave to clerks and subordinate employees, principal officers will bear in mind that leave must not be granted when the absence of the clerk will interfere

with the transaction of the business of the office and that the absences of members of the staff will be so arranged that the work can be carried on without additional assistance. Consular officers in charge of posts will endeavor, so far as may be consistent with the proper transaction of the business of their offices, to grant all or part of the leave specified, in order that clerks and employees may have reasonable opportunity for rest and recreation.

Article XXV of the Consular Regulations, 1896, entitled "Compensation of Consular Officers" is canceled and the following substituted:

#### ARTICLE XXV

##### COMPENSATION OF CONSULAR OFFICERS

491. *Three classes of officers.* In regard to the sources of their compensation there are three classes of consular officers, viz, (1) those who are Foreign Service officers and receive their compensation as such from appropriations made by Congress, (2) those who are not Foreign Service officers but who are paid from specific appropriations made by Congress, and (3) consular agents receiving no regular remuneration but who are compensated from the fees collected for official services and in payments from the Treasury of the United States for services to American vessels and seamen.

492. *Foreign Service officers.* Foreign Service officers assigned as consular officers receive salaries fixed by law and are entitled to compensation at the rate of their respective salaries as Foreign Service officers, with the following exceptions:

(a) *Absence from post.* (1) No consular officer shall receive salary for the time during which he may be absent from his post, by leave or otherwise, in excess of periods of absence which are authorized by law to be taken with pay (see secs. 465-474 of these regulations). (Act of Feb. 23, 1931, sec. 22.) (2) When a principal officer is absent from his post for a period exceeding 10 days at any one time, without permission previously obtained from the President through the Department of State, no portion of the salary will be allowed for any time in excess of the 10 days, unless the propriety and necessity of the absence shall be made clear to the department. (18 Stat. L. 77; U.S.C. title 22, sec. 124.)

(b) *Recall for malfeasance.* A consular officer is not entitled to compensation in case he is recalled for malfeasance except to the date of the delivery of the notification of recall at the consular office to which he was last attached or, in the event of his absence therefrom, its delivery at his last known address; or if the officer resigns in anticipation of such recall, he is entitled to compensation only to the date of the

acceptance of such resignation. In neither case will compensation be allowed for the time occupied in the transit to the United States.

(c) *Excess travel time.* A consular officer traveling on leave with permission to visit the United States is not entitled to salary in transit for any time in excess of that actually and necessarily occupied in proceeding by direct route and generally adopted method of transport from his post to his place of residence or destination in the United States, or vice versa, and such time as may be necessarily occupied in awaiting sailing, except when complying with specific orders issued by the Department of State (section 467). (Act of Feb. 23, 1931, sec. 22.)

493. *Compensation when performing diplomatic duties.* Within the discretion of the President, any Foreign Service officer may be assigned to act as commissioner, chargé d'affaires, minister resident, or diplomatic agent for such period as the public interest may require without loss of grade, class, or salary, provided that no such officer shall receive more than one salary. (Act of Feb. 23, 1931, sec. 24.) With the exception of commissioner, these appointments are subject to confirmation by the Senate.

494. *Additional compensation.* For such times as any Foreign Service officer is lawfully authorized to act as chargé d'affaires *ad interim* or to assume charge of a consulate general or consulate during the absence of the principal officer at the post to which he shall have been assigned, he shall, if his salary is less than one-half that of such principal officer, receive in addition to his salary as Foreign Service officer, compensation equal to the difference between such salary and one-half of the salary provided by law for the ambassador, minister, or principal consular officer, as the case may be. (Act of Feb. 23, 1931, sec. 26.)

Under such regulations as the President may prescribe, and within the limitations of such appropriations as may be made therefor, which appropriations are hereby authorized, ambassadors, ministers, diplomatic, consular, and Foreign Service officers may be granted allowances for representation, and also post allowances wherever the cost of living may be proportionately so high that in the opinion of the Secretary of State such allowances are necessary to enable such diplomatic, consular, and Foreign Service officers to carry on their work efficiently. All such allowances shall be accounted for to the Secretary of State in such manner and under such rules and regulations as the President may prescribe; and the authorization and approval of such expenditures by the Secretary of State, as complying with such rules and regulations, shall be binding upon all officers of the Government. (Act of Feb. 23, 1931, sec. 19.)

495. *Vice consuls not of career.* Vice consuls not of career are compensated as clerks from the regular clerk-hire allowance of the office where their service is performed. They receive no compensation as vice consuls.

Vice consuls not of career, receiving compensation as clerks, are entitled to compensation when traveling to and from their posts, or elsewhere, under orders of the Secretary of State, or while on leave of absence, subject to the law and regulations governing leaves of absence.

Vice consuls while in charge of a consulate general or consulate during the absence of the principal officer are entitled to additional compensation in the same manner and under the same conditions as Foreign Service officers. (43 Stat. L. 1016, 1017; U.S.C. title 22, secs. 35, 56.)

496. *Language officers.* Language officers receive their salaries as Foreign Service officers. In addition they may be provided with tuition and quarters.

497. *Consular agents.* Consular agents are paid by one-half of the fees received in their offices, up to a maximum sum of \$1,000, in any one year, the other half being accounted for and paid into the Treasury of the United States. If the total amount of fees received at a consular agency during a fiscal year exceeds \$2,000, such surplus must be remitted in full to the Treasury of the United States in addition to the \$1,000 due the Government as prescribed above. (34 Stat. L. 101; 43 Stat. L. 142; U.S.C. title 22, sec. 99.)

498. *Resignation in the United States.* The right to compensation of a consular officer who resigns while in the United States on leave of absence terminates with the date of the acceptance of the resignation, or the lapse of his statutory leave, whichever first occurs.

499. *Allowance to widow or heirs.* It has been provided by law that whenever a consular officer dies in a foreign country in the discharge of his duty, there shall be paid to his widow, or, if no widow survive him, then to his heirs at law, a sum of money equal to the allowance made to such officer for the time necessarily occupied in making the transit from his post of duty to his residence in the United States. The amount is paid directly to the widow, or heirs, as the case may be. (R.S. sec. 1749; U.S.C. title 22, sec. 130.)

500. *Extra compensation prohibited.* Except as otherwise provided by statute, the compensation allowed by law to the various Foreign Service officers and other consular officers is in full for all the services rendered and for personal expenses incurred by the persons respectively for whom such compensation is provided, of whatever kind such services or personal expenses may be, or by whatever treaty, law, or instructions they are required; and no allowance, other than such as may be

specifically provided by law, is made in any case for the outfit or return home of any such officer or person. (R. S. 1743; U.S.C. title 22, sec. 125.)

501. *Fees applicable to salaries and expenses.* All fees and other official moneys received by diplomatic missions or consular offices or by district accounting and disbursing offices established under section 35 of the act of February 23, 1931, may be transmitted through the Department of State for deposit in the United States Treasury or may be used in payment of salaries, allowances, and current expenses of such missions and offices, the residue, if any, to be transmitted through the Department of State for deposit in the United States Treasury. (Act of Feb. 23, 1931, sec. 36.)

This order shall take effect on July 1, 1931.

### Regulations Governing Representation and Post Allowances

In pursuance of the authorization contained in section 19 of the act of February 23, 1931 (46 Stat. 1209), which reads as follows:

"SEC. 19. That under such regulations as the President may prescribe, and within the limitations of such appropriations as may be made therefor, which appropriations are hereby authorized, ambassadors, ministers, diplomatic, consular, and Foreign Service officers may be granted allowances for representation; and also post allowances wherever the cost of living may be proportionately so high that in the opinion of the Secretary of State such allowances are necessary to enable such diplomatic, consular, and Foreign Service officers to carry on their work efficiently: *Provided*, That all such allowances shall be accounted for to the Secretary of State in such manner and under such rules and regulations as the President may prescribe and the authorization and approval of such expenditures by the Secretary of State, as complying with such rules and regulations, shall be binding upon all officers of the Government: *Provided further*, That the Secretary of State shall report all such expenditures annually to the Congress with the Budget estimates of the Department of State."

the following regulations are hereby prescribed to supersede the regulations established by Executive order dated July 22, 1930, which order is hereby canceled:

#### PURPOSES OF ALLOWANCES

The purposes for which these allowances are granted, are (1) in the case of representation allowances, the assistance in the establishment and maintenance of official contacts, the upholding of the prestige of the United States in the communities in which its representatives are stationed, and the furtherance of its interests abroad in the ways recognized as customary in various parts of the world, and (2) in the case of post allowances, the supplementing of official income of officers wherever the cost of living is proportionately so high that these allowances are necessary to enable such officers to carry on their work efficiently.

#### SCOPE OF ALLOWANCES

Representation allowances are considered to include the following items:

1. Receptions on American national holidays.
2. Functions, formal or informal, such as receptions, dinners, and luncheons, given upon special occasions such as the usual official receptions incident to visits of United States naval vessels or of special commissions, or upon some other important happening, providing the means of reciprocating official courtesies received, either at a representative's home or at public places.
3. Tips and gratuities in accordance with custom in the various countries where such gratuities are, in the opinion of the representative, necessary or desirable for the maintenance of the prestige of the United States.
4. Purchases of flowers, wreaths, etc., upon appropriate occasions such as weddings, births, and deaths of important personages.
5. Expenses for entertainment of other kinds than that provided for in paragraphs 1 and 2 when considered reasonable and desirable by the Secretary of State, provided that such expenses are shown to be for activities of representative importance.
6. Any other expenses which in the discretion of the Secretary of State are of a character to promote the representation of the United States abroad.

Post allowances are granted for the following purpose:

7. Assistance in adjusting official incomes at certain posts to the ascertained cost of living at such posts.

#### APPORTIONMENT OF ALLOWANCES

The Secretary of State is hereby authorized to make such allowances within the amounts appropriated from year to year to such diplomatic, consular, or Foreign Service officers as he may deem desirable to accomplish the purposes for which such allowances are granted.

## ACCOUNTING

Detailed accounts shall be submitted monthly as to the expenditures made from representation allotments and the purposes for which they were made. Supporting vouchers shall be supplied in all cases for expenditures over \$5 made under paragraphs 1, 2, 4, and 5 of the section of this order entitled "Scope of Allowances." A specific exception to this requirement is made under paragraph 2, where a function takes place at a representative's home. Vouchers need be submitted in this case only where a caterer or similar purveyor is called upon. In other cases, an officer's certificate as to expenditures made in this connection will be sufficient. In all cases of receptions, dinners, and other entertainment, sufficient information should be included in the account to show the total cost per capita, which shall constitute sufficient detail for accounting purposes.

With regard to expenditures under paragraphs 3 and 6 of the section mentioned above, the amounts expended shall be supported by certificates of the officer in charge, except that where any expenditure exceeds \$15, a supporting voucher must be obtained.

The amount available to any officer should normally be divided into four equal parts, to be availed of to that extent every three months. This will permit an expenditure of more than one-twelfth of the fund in any one month, but will nevertheless prevent a too early exhaustion of the fund. If more than one-fourth is spent in any three months, an explanation should accompany the account for such excess expenditure.

Due to express provisions of law, representation allowances may not be used for expenses in connection with any of the following objects:

1. Hire, purchase, operation, maintenance, or repair of any motor-propelled passenger-carrying vehicles.
2. Club or association dues.
3. Printing or engraving expenses.
4. Purchase of alcoholic beverages.

According to law, competitive bids must be obtained for all expenditures in excess of \$100, except where it is manifestly impossible to obtain such bids, in which case the circumstances rendering impossible the submission of such bids must be completely set forth.

The utmost care shall be exercised in the submission of the accounts for this fund, under the provisions of this order. The character of the appropriation is such that it is incumbent upon each officer in the field who has charge of the expenditure

of this appropriation to make certain that the items for which he spends the money are amply justified.

A post allowance granted to an officer is available only during the part of the fiscal year in which he remains within the district to which he is assigned. In no case may an officer be entitled to more than one-twelfth of his yearly allowance in any one month, fractional months to be prorated similarly, unless otherwise specifically authorized by the Secretary of State.

The receipts of officers for post allowances allotted to them under paragraph 7 of the section of this order entitled "Scope of Allowances" will be submitted on Standard Forms Nos. 275 and 275a with the regular accounts of the office to which the officer receiving the allowance is attached; and while itemization of expenditures made from such allowances is not necessary, it is incumbent upon each officer in the field to whom an allowance is made to utilize it to assist him in maintaining a standard of living that will permit him to carry on his work efficiently, as prescribed in the statute quoted above.

This order shall become effective July 1, 1931.

Under authority of the act of Congress approved June 4, 1897 (30 Stat. 36; U. S. Code, title 16, sec. 473), and on the recommendation of the Secretary of Agriculture, it is hereby ordered that a part of the existing boundary between the Selway and Bitterroot National Forests in the State of Idaho be modified so that the portion of the boundary thereby affected will hereafter be described as follows:

Beginning on the Montana-Idaho State boundary line at monument 323.925, which is also on the boundary between the Selway and Bitterroot National Forests; thence westerly following the hydrographic divide between the headwaters of Cub Creek, Brushy Fork, Fry Pan Creek, and Gardiner Fork on the north and the tributaries of White Cap Creek, the headwaters of Lookout and Bad Luck Creeks on the south to an intersection with the hydrographic divide between Gardiner Creek (tributary to Selway River) and Bad Luck Creek; thence southerly and westerly along the hydrographic divide between Gardiner Creek on the west, and Bad Luck Creek and minor tributaries of the Selway River on the east and south respectively to an intersection with the Selway River; thence across said river and southerly along the hydrographic divide between Green Ridge Creek on the west and Selway River on the east to the hydrographic divide at the head of Green Ridge Creek; thence southerly along the hydrographic divide between Eagle Creek on the west and Crooked Creek on the east, passing Mount Aura and Green Ridge to the intersection with the present Selway-Bitterroot Forest boundary, which is a point about 1½ miles north of Spot Mountain triangulation station.

### Accounts and Returns, Foreign Service

The regulations established in this Executive order shall be effective and binding not only as Consular Regulations but as amendments and additions to the Instructions to Diplomatic Officers, and they shall be in substitution for and effect the cancellation of all parts of the Instructions to Diplomatic Officers which are inconsistent therewith. It is therefore ordered that these regulations shall be incorporated into the Instructions to Diplomatic Officers, in so far as they are applicable thereto; and express authorization is given for their use for this purpose under different titles and numerical designations and also appropriately to change references to consular officers or consular offices, wherever they occur, to refer to diplomatic officers or diplomatic missions.

Following section 578 of the Consular Regulations of the United States, insert the following title and sections:

#### ACCOUNTS AND RETURNS WITHIN CERTAIN PRESCRIBED FISCAL DISTRICTS

579. *Establishment of fiscal districts and creation of district accounting and disbursing offices to exercise control over the accounting and disbursing work of the Foreign Service posts located therein.* The Secretary of State is hereby authorized, whenever the necessity for such offices with a view to effecting economies in accounting procedure is apparent, to prescribe certain fiscal districts or areas and to establish within each such district as a part of the Department of State services, a district accounting and dis-

disbursing office to exercise control over the accounts and returns of all diplomatic missions and consular offices within the district in such manner as the Secretary of State may direct. To each such office may be assigned the administrative accounting responsibility for receipts and expenditures of the diplomatic missions and consular offices within the district. Each district office shall be in the charge of an accountable officer, to whom all fees and other official moneys received by any diplomatic, consular, or Foreign Service officer may be accounted for, under such rules and regulations as may be prescribed by the Secretary of State, all such fees and moneys, or the residue thereof after the payment of salaries, allowances, and current expenses of the diplomatic missions and consular offices within the district, to be paid by the district accounting and disbursing officer into the Treasury of the United States. Such district accounting and disbursing officers accountable for public moneys may entrust moneys to other bonded officers for the purpose of having them make disbursements as their agents; and the officer to whom the moneys are entrusted, as well as the officer who entrusts the moneys to him, shall be held pecuniarily responsible therefor to the United States. All diplomatic, consular, or Foreign Service officers on duty within the area covered by such district offices may be required to render accounts of their disbursements to the officer in charge of such district office to be included in his accounts. Said district accounting and disbursing officers and their agents shall be bonded respectively to the United States for the faithful performance of their duties in such penal amounts as the Secretary of State may require. (Act of Feb. 23, 1931, sec. 35.)

580. *General accounts required within the jurisdiction of a district accounting and disbursing office.* Diplomatic, consular, or Foreign Service officers on duty within the area covered by a district accounting and disbursing office will forward to such district office, rather than to the Department of State, such accounts and returns as the Secretary of State may prescribe. No accounts and returns will be required of such diplomatic and consular officers with respect to such of their fiscal transactions as the Secretary of State may from time to time establish, by appropriate instructions, as exclusive or primary functions of such district offices.

581. *Accounting for receipts to district accounting and disbursing officers.* All receipts from consular fees and all other official receipts of any Foreign Service post within the jurisdiction of a district accounting and disbursing office will be included in accounts and returns of the responsible diplomatic, consular, or Foreign Service officers to the district office at the same intervals and in a manner similar to that prescribed in Article XXVII of these regulations for the submission of such accounts

and returns directly to the Department of State by all officers not within a fiscal district.

582. *Payments and disbursements to be made by district accounting and disbursing offices.* District accounting and disbursing offices shall pay, by checks for American currency drawn on the Treasurer of the United States, and in accordance with instructions issued by the Secretary of State, the salaries and allowances for personal services due to all diplomatic, consular, or Foreign Service officers and employees stationed at the Foreign Service posts within the jurisdiction of the respective district offices (except minor employees paid in foreign currency from appropriations for contingent expenses); and any other official expenses of Foreign Service posts may be paid in the same manner when so directed by the Secretary of State.

583. *Drafts to be drawn in fiscal districts only in cases of emergency.* Diplomatic, consular, and Foreign Service officers stationed within the district of any district accounting and disbursing office will draw and negotiate drafts in accordance with sections 570-578 of these regulations and pertinent instructions, only in cases of emergency, when it is necessary to make payments that may not properly be delayed until money can be procured by requisition from the appropriate district accounting and disbursing office.

584. *Accounting regulations—when applicable.* All regulations and instructions pertaining to the accounts and returns of consular officers will be binding upon officers stationed within the district of any Foreign Service district accounting and disbursing office, except as they are modified by sections 579-584 of these regulations or by instructions issued with respect thereto by the Secretary of State.

Sections 579-584 of these regulations, and instructions issued with respect thereto by the Secretary of State, will not be binding upon consular officers stationed outside the district of any Foreign Service accounting and disbursing office.

This order shall take effect July 1, 1931.

### AMENDMENTS TO THE CONSULAR REGULATIONS

Sections 117, 118, 149, and 448 of the Consular Regulations of 1896 are hereby amended as follows:

117. *Correspondence of subordinates.* The official correspondence of Foreign Service officers and consular officers and employees assigned to, or on detail in, consulates general and consulates will be submitted to the examination of the principal officers to whom they are subordinate or to whose offices they are assigned, and the correspondence should be appropriately indorsed by such principal officers before

being transmitted to the Department of State. Consular agents are not authorized to address the Department of State directly. Their reports and returns are to be made through their respective superiors.

118. *With whom direct correspondence is permitted.* As exceptions to the general rule stated in section 114, a consular officer may correspond directly on public matters with the following:

1. American officials stationed or temporarily residing in foreign countries, and officials of insular possessions of the United States.

2. The Comptroller General of the United States, on matters pertaining to accounts only, *the correspondence invariably to be forwarded in duplicate through the Department of State.*

3. Collectors of customs and appraisers, on matters relating to invoices and prices current.

4. Immigration inspectors, on *urgent* immigration matters.

5. The Administrator of Veterans' Affairs, on routine pension matters and on routine matters relating to the activities of the Veterans' Administration (except telegrams, which must be transmitted through the Department of State).

6. United States dispatch agents.

7. Officials of the Department of Justice and the Treasury Department charged with the prevention of smuggling, on urgent matters involving attempts to smuggle merchandise and prohibited articles into the United States.

8. United States attorneys, on urgent cases in connection with pending trials.

149. *Duties toward American citizens.* The powers and duties of consular officers in respect to American citizens depend in a great measure upon the municipal law of the United States. No civil or criminal jurisdiction can be exercised by them over their countrymen without express authority of law or by treaty stipulation with the State in which they reside. Consular officers are particularly cautioned not to enter into any contentions that can be avoided, either with their countrymen or with the authorities or nationals of the country. They should use every endeavor to settle in an amicable manner all disputes in which their countrymen may be concerned, but they should take no part in litigation between citizens. Consular officers should countenance and protect American citizens before the authorities of the country in all cases in which they may be injured or oppressed; but at the same time they should impress upon such citizens their obligation to respect the laws of the country where they may be residing or traveling. It is the duty of consular officers to endeavor on all occasions to maintain and promote all the rightful interests of American citizens, and to protect them in all privileges that are provided for by treaty or are conceded by usage. If representations are made to the local authorities and fail to secure the proper redress, the case should be reported to the diplomatic mission and to the Department of State.

448. *To be returned to local post office.* All letters addressed in the care of a consular office should be held at the disposal of the addressees for the period prescribed by the laws of the country in which the consular office is situated. If unclaimed within such period, they should be redelivered, unopened and with stamps intact, to the local post office from which they were received, in order that they may be returned to the country of origin in pursuance of the provisions of the Universal Postal Convention. Consular officers will not return unclaimed letters by masters of vessels.

Section 449 of the Consular Regulations, being obsolete, is hereby canceled.

The first paragraph of item 42 of the Tariff of United States Consular Fees is amended to read:

Additional fee for all services contemplated by fees numbered 31, 33, 38, 39, 40, and 41 when rendered elsewhere than at the consular office at the request of the interested parties, for each hour or fraction thereof . . .

The following is established as item 50 of the Tariff of United States Consular Fees:

Administering oaths or taking acknowledgments, or authenticating the signatures of foreign officials, in connection with kinsmen's petitions for wages and effects of deceased seamen of the American merchant marine.....No fee.

### STIPULATIONS FOR THE PAYMENT OF PREVAILING RATE OF WAGES IN PUBLIC BUILDING CONTRACTS

In order to effect the purposes of the act entitled "AN ACT Relating to the rate of wages for laborers and mechanics employed on public buildings of the United States and the District of Columbia by contractors and subcontractors, and for

other purposes," approved March 3, 1931 (46 Stat. 1494), it is hereby ordered that in all contracts within the terms of said act there shall be added to the stipulation required by said act the following stipulations:

It is expressly understood and agreed that the aforesaid wages shall be paid unconditionally in full not less often than once a week and in lawful money of the United States, to the full amount accrued to each individual at time of payment and without subsequent deduction or rebate on any account.

It is expressly understood and agreed that for the purpose of said act every person, while performing work of a laborer or mechanic on the public work covered by this contract, is to be regarded as employed as a laborer or mechanic by the contractor or subcontractor, regardless of any contractual relationship alleged to exist between the contractor or subcontractor and such laborer or mechanic.

It is understood and agreed that the payrolls of the contractor and all subcontractors and agreements made by the contractor or subcontractor or any other party relating to the employment of laborers or mechanics, or the performance of the work of laborers and mechanics on said building, and to the wages or compensation to be paid therefor, are to be open to inspection by the contracting officer at such times as the latter may elect, provided that such inspection shall not interfere with the proper and orderly prosecution of the work, and that a clearly legible statement of the rates payable as aforesaid under this contract shall be posted by the contractor in a prominent and easily accessible place at the site of the work so that such statement may be seen at any time by persons engaged on the work.

It is further expressly understood and agreed that if it should be found by the contracting officer that any laborer or mechanic employed by the contractor or any subcontractor on the public work covered by this contract has been or is being paid a rate of wages less than the prevailing rate of wages, as aforesaid, the Government may, by written notice to the contractor, terminate his right to proceed with the work, or such part of the work as to which there has been a failure to pay said prevailing wages. In such event, it is understood and agreed that the Government may take over the work and prosecute the same to completion by contract or otherwise, and that the contractor and his sureties shall be liable to the Government for any excess cost occasioned the Government thereby.

This order shall apply to all such contracts for which bids are hereafter invited.

S. Code, title 48, ch. 6). The said area is described as follows:

Beginning at a concrete monument (marked #1 on the map), N. 00° 30' E., 75 ft. from Thatcher Highway Station P.C. 50 plus 00.00, said monument being 8 in. square and 30 in. above the ground, the geographic position of which, referred to the Canal Zone triangulation system, is in latitude 8° 56' plus 4,754.37 ft. and longitude 79° 34' plus 5,713.90 ft.; thence in a westerly and northerly direction, along a line parallel to and 75.00 ft. from the Thatcher Highway center line, to a concrete monument (marked #2 on the map) in latitude 8° 57' plus 3,133.52 ft. and longitude 79° 37' plus 1,026.60 ft. opposite P.T. Station 201 plus 79.10; thence due north, 5,808.00 ft. to a concrete monument (marked #3 on the map) in latitude 8° 58' plus 2,894.16 ft. and longitude 79° 37' plus 1,026.60 ft.; thence due east, 12,736.80 ft. to a point (marked #4 on the map) in latitude 8° 58' plus 2,894.16 ft. and longitude 79° 35' plus 316.44 ft.; (on the extension of the last course, 444.38 ft. from point #4 is a 6-in. pipe monument, 6 ft. above the ground); thence S. 19° 24' 40'' E., 5,280.00 ft., along a line parallel with and 1,000.00 ft. from the west prism line of the Canal to a point (marked #5 on the map) in latitude 8° 57' plus 3,961.64 ft. and longitude 79° 34' plus 4,575.01 ft.; thence due east, 1,060.27 ft. to a point on the west prism line of the Canal (marked #6 on the map) in latitude 8° 57' plus 3,961.64 ft. and longitude 79° 34' plus 3,514.74 ft.; thence S. 19° 24' 40'' E., 4,155.75 ft. along the west prism line of the Canal to a point (marked #7 on the map) in latitude 8° 57' plus 42.10 ft. and longitude 79° 34' plus 2,133.61 ft.; thence S. 38° 15' 30'' E., 1,752.06 ft. to a point on the west prism line of the Canal (marked #8 on the map) in latitude 8° 56' plus 4,713.69 ft. and longitude 79° 34' plus 1,048.73 ft.; thence N. 89° 30' W., 3,760.68 ft. to a concrete monument (marked #9 on the map) in latitude 8° 56' plus 4,746.52 ft. and longitude 79° 34' plus 4,809.26 ft.; thence on the same course, 904.79 ft. to the point of beginning, containing an area of 2,509.618 acres or 3.9213 square miles.

The directions of the lines refer to the true meridian and were determined from deflection angles from known azimuths of the Canal Zone triangulation system. The magnetic declination was not recorded. The survey was made January 6 to 15, 1932, by The Panama Canal. The parcel of land is shown on Panama Canal Drawing X-6102-22, on file in the office of the Governor of the Panama Canal and the Judge Advocate General of the Navy.

Excepting and reserving therefrom the necessary rights of way for the location and functioning of existing and projected necessary highways, power and communication lines, lighthouses, and military defense installations, and, in principle, for such additions to these installations as in future may be found to be necessary:

*Provided, however,* that in the event that change in the plans and projects of the Navy Department result in rendering surplus for naval requirements any portion of the area aforesaid, the portion thus rendered surplus shall be restored to its previous status under the control of the Canal Zone.

\* Available for non-Government assignments.

The following Government experimental radio stations are authorized to use miscellaneous frequencies from time to time provided no interference is caused with other authorized service:

Navy Department: Naval Research Laboratory (NKF); Annapolis (NZO); Quantico (NZY).

War Department: Fort Monmouth, N.J. (WLY); Wright Field, Ohio (WZAJ).

Department of Commerce: Bureau of Standards, Washington, D.C. (WWV).

In the allocation of these frequencies the following principles have been followed and shall be followed in the consideration of future applications for use of frequencies by Government departments:

#### UTILIZATION OF EXISTING COMMUNICATION FACILITIES

"No department shall erect a new station in the proximity of an existing government station, unless the same is incapable of rendering to such department the service that it requires, which shall be determined only after careful consideration by the departments concerned or by the permanent interdepartment organization. Whenever practicable, such a situation shall be met by the expansion of the existing stations, if necessary under joint contribution of the Departments interested. No department shall close a station no longer needed by it which is serving other Government departments without first making arrangements in respect to such service that are satisfactory to the departments being served."

"Experimental operation of any government radio station on a frequency not previously assigned to it but assigned to some government station by an Executive Order may be undertaken after approval by the other government agencies concerned through the Interdepartment Radio Advisory Committee, for a period to extend not beyond three months from the date of approval, with the proviso that it will cease operation on notice of interference."

#### GOVERNMENT ENCOURAGEMENT TO PRIVATE RADIO ENTERPRISES

"The Government will encourage and foster the development of privately owned and operated radio facilities in such a manner that in time of war or similar national emergency there shall be available the most effective system for the national defense.

In part, this encouragement shall consist of utilizing the services of commercial stations wherever Government interests warrant in the accomplishment of the service required."

The stations listed herein may use other frequencies for the purpose of selecting a frequency more suitable for a particular service prior to requesting authority to change the frequency, provided a notice is first submitted to the Interdepartment Radio Advisory Committee and also a notice to the Federal Radio Commission, if the frequency is not included in the Executive order, on the proviso that it will cease operation on notice of interference from the Interdepartment Radio Advisory Committee or the Federal Radio Commission and such use shall not be for more than one month total.

The powers of the stations shown are those at the time of issuance of Executive order and are not limitations upon the stations.

The locations given are locations of the transmitting apparatus; and where control points are different, they are given in parentheses.

This Executive order supersedes Executive Order No. 5638, June 8, 1931.

### ASSIGNMENT OF FREQUENCIES TO GOVERNMENT RADIO STATIONS

WHEREAS section 6 of the Radio Act of 1927 (44 Stat. 1162, 1165) provides as follows:

"Radio stations belonging to and operated by the United States shall not be subject to the provisions of sections 1, 4, and 5 of this Act. All such Government stations shall use such frequencies or wave lengths as shall be assigned to each or

to each class by the President. All such stations, except stations on board naval and other Government vessels while at sea or beyond the limits of the continental United States, when transmitting any radio communication or signal other than a communication or signal relating to Government business shall conform to such rules and regulations designed to prevent interference with other radio stations and the rights of others as the licensing authority may prescribe. Upon proclamation by the President that there exists war or a threat of war or a state of public peril or disaster or other national emergency, or in order to preserve the neutrality of the United States, the President may suspend or amend, for such time as he may see fit, the rules and regulations applicable to any or all stations within the jurisdiction of the United States as prescribed by the licensing authority, and may cause the closing of any station for radio communication and the removal therefrom of its apparatus and equipment, or he may authorize the use or control of any such station and/or its apparatus and equipment by any department of the Government under such regulations as he may prescribe, upon just compensation to the owners. Radio stations on board vessels of the United States Shipping Board or the United States Shipping Board Emergency Fleet Corporation or the Inland and Coastwise Waterways Service shall be subject to the provisions of this Act."

AND WHEREAS the Government departments using radio find it necessary for efficient operation to make some changes in previous frequency assignments to individual stations and have requested that such changes be authorized;

NOW, THEREFORE, I, HERBERT HOOVER, President of the United States of America, pursuant to the authority vested in me by law, do hereby allocate frequencies to the Government stations as follows:

### RULES GOVERNING THE GRANTING AND ISSUING OF PASSPORTS IN THE UNITED STATES

Section 1 of the act of July 3, 1926 (U.S. Code, title 22, sec. 211a), provides that "The Secretary of State may grant and issue passports, and cause passports to be granted, issued, and verified in foreign countries by diplomatic representatives of the United States, and by such consul generals, consuls, or vice consuls when in charge, as the Secretary of State may designate, and by the chief or other executive officer of the insular possessions of the United States, under such rules as the President shall designate and prescribe for and on behalf of the United States, and no other person shall grant, issue, or verify such passports." The following rules are accordingly prescribed for the granting and issuing of passports in the United States.

#### SECTION I.—AUTHORITY TO ISSUE PASSPORTS IN THE UNITED STATES AND ABROAD

1. Section 1 of the act of July 3, 1926 (U.S. Code, title 22, sec. 211a), and section 4078 of the Revised Statutes as amended by the act of June 14, 1902 (U.S. Code, title 22, sec. 219), provide that no one but the Secretary of State may grant and issue passports in the United States, and he is empowered to refuse them in his discretion.

2. Passports are issued by American consular officers abroad. A citizen who is abroad and desires to procure a passport should apply therefor to the nearest American consular officer.

3. Passports are issued in the Virgin Islands, Hawaii, the Philippines, Guam, American Samoa, and Puerto Rico by the chief executives of those islands. Applications for passports by persons residing therein should be made to such chief executives.

#### SECTION II.—TO WHOM PASSPORTS ARE ISSUED

4. Section 4076 of the Revised Statutes of the United States as amended by the act of June 14, 1902 (U.S. Code, title 22, sec. 212), provides that "No passport shall be granted or issued to or verified for any other persons than those owing allegiance, whether citizens or not, to the United States."

5. Unless a request is made by the parental or other guardian that a passport be denied, passports may be issued to minors upon their own application.

6. Children may execute applications on their own behalf when of sufficient intelligence to understand the statements therein and the nature of the oath of allegiance.

7. As a rule children of 12 years of age or more should be required to execute their own applications.

8. If circumstances warrant, a parent or guardian may execute applications on behalf of minors of any age. The application should be signed thus: "Richard Roe, by John Roe, father." The oath of allegiance need not be administered.

### SECTION III.—PERSONS WHO MAY BE INCLUDED IN ONE PASSPORT

9. Only persons who are citizens or who owe allegiance to the United States may be included in a passport of the United States.

10. A passport issued to a husband or father may include his wife and unmarried minor children. A woman's passport may include her unmarried minor children.

11. A minor brother or sister may be included in the passport of an older brother or sister.

12. A minor grandchild, niece, or nephew of tender years may be included in the passport of the relative when the application therefor is accompanied by a request from the parental or other guardian.

13. Members of the immediate family who are 21 years of age, maidservants, and manservants must bear separate passports.

14. Adopted children, who are American citizens, may be included in a passport issued to the adoptive parents. (See rule 74.)

### SECTION IV.—FEE FOR THE EXECUTION OF AN APPLICATION AND FOR A PASSPORT; PASSPORTS ISSUED WITHOUT FEES

15. Section 1 of the act of June 4, 1920 (U.S. Code, title 22, sec. 214), provides in part as follows:

"From and after the 1st of July, 1920, there shall be collected and paid into the Treasury of the United States quarterly a fee of \$1 for executing each application for a passport: . . . *Provided*, That nothing herein contained shall be construed to limit the right of the Secretary of State by regulation to authorize the retention by State officials of the fee of \$1 for executing an application for a passport: *And provided further*, That no fee shall be collected for passports issued to officers or employees of the United States proceeding abroad in the discharge of their official duties, or to members of their immediate families, or to seamen, or to widows, children, parents, brothers, and sisters of American soldiers, sailors, or marines, buried abroad whose journey is undertaken for the purpose and with the intent of visiting the graves of such soldiers, sailors, or marines, which facts shall be made a part of the application for the passport."

16. Section 2 of the act of May 16, 1932, provides:

"That the validity of a passport . . . shall be limited to a period of two years: *Provided*, That a passport may be renewed under regulations prescribed by the Secretary of State for a period, not to exceed two years, upon payment of a fee of \$5 for such renewal, but the final date of expiration shall not be more than four years from

the original date of issue: *Provided further*, That the Secretary of State may limit the validity of a passport, . . . or the period of renewal of a passport to less than two years: *Provided further*, That the charge for the issue of an original passport shall be \$9."

17. Under the provisions of the act of June 4, 1920, a fee of \$1 must be collected for the execution of each application for a passport. There is no exception to this rule.

18. A fee of \$9 must be collected for each passport issued except as hereinafter provided in rule 19.

19. In accordance with the provisions of the act of June 4, 1920 (U.S. Code, title 22, sec. 214), no fee should be collected for passports issued to officers or employees of the United States proceeding abroad in the discharge of their official duties, or to members of their immediate families, or to seamen, or to widows, children, parents, brothers, and sisters of American soldiers, sailors, or marines buried abroad whose journey is undertaken for the purpose and with the intent of visiting the graves of such soldiers, sailors, or marines.

20. The fee of \$9, payable in currency or postal money order, must accompany each application for a passport executed before a clerk of court. If executed before a passport agent of the Department of State, the fees should be paid in currency. Postal money orders should be made payable to the disbursing officer, Department of State. Drafts or checks will not be accepted in the payment of passport fees.

#### SECTION V.—APPLICATIONS FOR PASSPORTS

21. The act of June 15, 1917 (U.S. Code, title 22, sec. 213), requires every applicant for a passport issued under the authority of the United States to submit a written application, duly verified by his oath, and containing a true recital of each and every matter of fact which may be required by law or by rules authorized by law as a prerequisite to the issuance of a passport.

22. The application must be made in person and signed by the person to whom the passport is to be issued.

23. The application must be executed before a clerk of a Federal court or a State court authorized by the act of Congress of June 29, 1906 (34 Stat. 596), to naturalize aliens, or before an agent of the Department of State.

24. The seal of the court, when the application is executed before a clerk of court, or the seal of an agency of the Department of State when the application is executed before such agent, must be affixed to the application.

25. Where the application is not made at or near the place where the applicant resides, the applicant should give the name and address of a reputable person, residing at or near the place of the applicant's residence, to whom the clerk of court, the agent of the Department of State, or the Department of State itself may address

such inquiry as may be necessary concerning the applicant. Where it is necessary to make inquiries by telegraph, the applicant should bear the expense thereof.

If the applicant is a married woman who desires the use of her maiden or professional name, she may, in applying for a passport, use her maiden or professional name followed by the name of her husband—thus,

46. Passport photographs must be signed by the applicant, the signature to correspond with the signature in the application.

47. Photographs in uniform will not be accepted except from applicants who are in the active service of the military forces of the United States.

49. The application should contain the supporting affidavit of such a witness, who must state the period of time during which he has known the applicant; that the applicant is the person whom he represents himself to be, and that his statements are true to the best of his knowledge and belief.

50. Such supporting affidavit, together with any additional affidavit or affidavits which may be required, shall become part of the application, so that the following

provisions of law shall be applicable: United States Code, title 22, sec. 220, concerning the making of false statements in applications and the penalty prescribed thereunder; United States Code, title 18, sec. 231, concerning perjury and the penalty prescribed thereunder; and United States Code, title 18, sec. 88, concerning conspiracies to commit an offense against or to defraud the United States and the penalty prescribed thereunder.

AND OF THEIR IMMEDIATE FAMILIES

61. Officers or employees of the United States proceeding abroad under orders must submit with their applications a written request from the head of the department or office in which the applicant is employed for the issue of a passport to the applicant. The request should set forth the nature of the employment of the applicant and the official nature of his journey abroad.

62. Applicants for passports who are the members of the immediate family of an officer or employee of the United States who is about to proceed abroad or who is abroad in the discharge of official duties are not required to submit documentary evidence of their status if they refer to a passport issued to such an officer or employee of the United States.

SECTION VIII.—APPLICATIONS OF AMERICAN SEAMEN

63. As a rule American seamen traveling as such should use in lieu of passports the seaman's certificate of citizenship issued by customs officials. Nevertheless, passports are issued to seamen who are citizens or who owe allegiance to the United States whenever passports are required upon the travel in which the seamen are engaged.

64. A seaman should transmit with his application the seaman's certificate of American citizenship or other official document of nationality or identity of which he

is the bearer together with such additional evidence of American citizenship called for by Section X.

SECTION IX.—APPLICATIONS OF PERSONS VISITING THE GRAVES OF AMERICAN SOLDIERS, SAILORS, OR MARINES BURIED ABROAD

65. An application for a passport executed by a widow, child, parent, brother, or sister of an American soldier, sailor, or marine buried abroad must be accompanied by a statement from the War Department, Washington, D. C., setting forth the name of the deceased American soldier, sailor, or marine to whom the applicant claims relationship and that the body is buried in a foreign country. Passports issued upon such applications will be valid only for the country to be visited, and countries *en route*, and for the purpose of visiting the grave.

SECTION X.—EVIDENCE OF CITIZENSHIP TO ACCOMPANY APPLICATIONS FOR PASSPORTS

*a. Native citizen.*

66. A person born in the United States in a place where official records of birth were kept at the time of his birth must submit with the application a birth certificate under the seal of the official custodian of birth records. A certificate to be acceptable must show the place and date of birth and that the record thereof was made at the time of birth or shortly thereafter. If a birth certificate is not obtainable, that fact should be shown, and the application should be supported by a baptismal certificate or a certified copy of the record of baptism under the seal of the church in which the applicant was baptized, giving the place and date of birth, the date of baptism, and the date on which the record of baptism was made. A baptismal certificate to be acceptable must show that the baptism occurred within a short time after the birth of the applicant. If birth and baptismal certificates are not obtainable, an affidavit of the parent or of the physician, nurse, or midwife who attended the birth or the affidavit of a reputable person having sufficient knowledge to be able to testify as to the place and date of the applicant's birth may be accepted. A person who did not attend the birth but who testifies concerning the place and date of the applicant's birth should state briefly how and through what source the knowledge was acquired.

67. A person born abroad whose father was a native citizen of the United States must submit with the application the evidence of the father's birth in this country as required in the preceding section.

68. If the applicant comes within the provisions of rules 66 or 67, reference to an application submitted since November 1, 1916, will be sufficient, provided there is a record on the previous application of the necessary evidence of citizenship having been submitted.

*b. Persons claiming citizenship through naturalization of self or parent.*

69. A person claiming citizenship through naturalization, against whom the presumption of having ceased to be an American citizen has arisen under the provisions of section 2 of the act of March 2, 1907 (34 Stat. 1228), must submit with his application a supplementary affidavit setting forth the exact places and periods of foreign residence and the reasons therefor.

70. A person naturalized in his own right must transmit with his application his certificate of naturalization.

72. A child born abroad after the naturalization of the parent must submit with his application evidence of the nature described in the preceding rule.

73. If the applicant comes within the provisions of rules 70, 71, or 72, his old passport will be accepted in lieu of a certificate of naturalization, provided the application upon which a previous passport was issued is found to contain sufficient information as to the naturalization of the applicant or the parent.

*c. Adopted child included in the passport of the foster parent or parents.*

74. Inasmuch as the adoption of an alien child by an American citizen does not confer American citizenship upon such child, it is necessary, when an adopted minor child is to be included in the passport of the foster parent or parents, that the application be accompanied by documentary evidence of the adoption of the child and evidence of the child's American citizenship.

*d. Wife included in husband's application.*

75. When a wife is to be included in the husband's passport, in addition to evidence of his own citizenship his application must be accompanied by evidence of his wife's citizenship if they were married on or after September 22, 1922.

(c) One who was married to an alien between March 2, 1907, and September 22, 1922, and whose marital status terminated prior to September 22, 1922. If the marriage was terminated by divorce, the original decree of divorce or a certified copy of the court record thereof must be submitted. If the marriage was terminated by

death, a statement to that effect must be made in the application. The manner in which American citizenship was resumed must be shown.

77. American-born women who were married to aliens prior to March 2, 1907, may receive passports upon submitting proof that they were American citizens at the time of their marriage, unless they lost citizenship by taking up a permanent residence abroad with their husbands at any time prior to September 22, 1922, and acquired as a result of the marriage the nationality of the country of which their husbands were citizens or subjects.

78. An American-born woman who was married to an American citizen prior to September 22, 1922, must submit evidence of own or husband's citizenship.

79. An American woman who lost her American citizenship by marriage to an alien and whose husband became naturalized prior to September 22, 1922, must submit husband's certificate of naturalization.

80. An American woman who was married to an alien on or after September 22, 1922, against whom the presumption of having ceased to be a citizen had arisen under the provisions of section 3 of the act of September 22, 1922 (42 Stat. 1021, 1022), prior to July 3, 1930, must submit with her application a supplementary affidavit explaining her protracted foreign residence.

81. Alien-born women who must submit evidence of own citizenship:

(a) One who has never been married and who has been naturalized in her own right or who was naturalized through the naturalization or resumption of American citizenship by the parent.

(b) One who was married to an alien and who, after the termination of the marital status, was naturalized in her own right.

(c) One who was married to an alien prior to September 22, 1922, and who subsequent to that date was naturalized as an American citizen.

(d) One who was married after September 22, 1922, and who was naturalized in her own right or who was naturalized through the naturalization or resumption of American citizenship by the parent.

(b) One who was married to an alien prior to September 22, 1922, and whose husband became naturalized prior to that date.

83. An alien-born woman who was married to a citizen or an alien after September 22, 1922, and who at the time of that marriage was a citizen by virtue of a former

marriage to an American citizen must submit evidence of former husband's citizenship.

84. A woman born abroad of American parents should submit evidence of American citizenship as required in rules 67 and 72, provided her citizenship status was not changed by subsequent marriage or in some other manner.

SECTION XII.—A RESIDENT OF AN INSULAR POSSESSION OF THE UNITED STATES  
WHO OWES ALLEGIANCE TO THE UNITED STATES

85. A resident of an insular possession of the United States who owes allegiance to the United States and who was born where official records of birth were kept at the time of his birth must submit with his application evidence of citizenship of the nature described in rule 66, except that two affidavits must accompany the application when a proper birth or baptismal certificate can not be submitted or an affidavit can not be obtained from a person who attended the birth. The affidavits must be executed by credible persons, who should state briefly how and through what source the knowledge of the date and place of the applicant's birth was acquired.

86. If the applicant was born after April 11, 1899, in the Philippine Islands, Puerto Rico, or Guam, and can not present his birth or baptismal certificate, the affidavits which he is required to submit under the foregoing rule should contain, in addition to the statements called for concerning the applicant, a statement of the nationality of his father, the date and place of the latter's birth, and the period of the latter's residence in the insular possession.

SECTION XIII.—THE USE OF TITLES AND BUSINESS OR PROFESSIONAL NAMES IN  
PASSPORTS

87. Professional and other titles will not be inserted in passports, but an applicant's name in religion, an author's *nom de plume*, a stage or business name, etc., may be included in parentheses after the bearer's name.

88. Persons who have had their names changed by decree or order of a court may be issued passports in the changed name upon submission of a certified copy of the decree or order of the court.

89. If the name is changed by the applicant himself having adopted a new name, affidavits must be submitted from two or more persons to the effect that the applicant uses the new name, has used it for a stated period of time, is known by such name in the community in which he resides, and carries on his business or profession in that name.

SECTION XIV.—PERIOD OF VALIDITY OF PASSPORTS AND EXTENSION OF LIMITED  
PASSPORTS

90. Section 2 of the act of May 16, 1932, provides in part as follows:

"That the validity of a passport . . . shall be limited to a period of two years: *Provided*, That a passport may be renewed under regulations prescribed by the Secretary of State for a period, not to exceed two years, upon payment of a fee of \$5 for such renewal, but the final date of expiration shall not be more than four years from the original date of issue: *Provided further*, That the Secretary of State may limit the validity of a passport, . . . or the period of renewal of a passport to less than two years: *Provided further*, That the charge for the issue of an original passport shall be \$9."

91. The original period of possible validity of a passport issued under the act of May 16, 1932, is restricted to two years, but the passport may be renewed for a period of not more than two years upon payment of a fee of \$5.

92. The Department of State is authorized in its discretion to restrict the original or renewal period of a passport to less than two years.

93. A passport which was issued within the period of four years prior to application for renewal may be renewed in the discretion of the Department of State; but in any case where a person fails to apply for renewal of his passport prior to or immediately after the expiration of the original period of validity of two years his passport, when renewed, shall not extend beyond a period of four years from the original date of issue.

94. The fee for the renewal of a passport is \$5.

95. Requests for renewal of a passport should not be made until the passport has expired or is about to expire.

96. As a rule, passports having a remaining validity of more than three or four months should not be renewed unless special circumstances should warrant exceptional procedure.

97. Requests for renewal may be made by personal application or letter addressed to the Department of State, a passport agent, a consular officer of the United States, or the chief executive of Hawaii, the Philippines, Puerto Rico, the Virgin Islands, Guam, or American Samoa.

98. The fee of \$5, in currency or postal money order, should accompany each request for renewal. Postal money orders should be made payable to the Disbursing Officer, Department of State.

99. Drafts or checks will not be accepted.

100. Each request for renewal should be accompanied by the passport which it is desired to be renewed.

101. A person who holds an expired passport and desires a new passport must submit a new application therefor.

102. A person in the United States who has been issued a passport restricted in validity to a period less than two years and who desires to apply for an extension of the validity of the passport to the full period of two years should communicate with the Department of State, unless he resides in a place where there is an agent of the Department of State, in which case the application for extension may be forwarded through such agent.

103. A person outside the United States holding a passport which has been restricted in validity may apply through a diplomatic or consular officer of the United States or through the chief executive of one of the insular possessions of the United States to have his passport extended.

104. No fee is required for the extension of a passport.

#### SECTION XV.—AMENDMENT OF PASSPORTS

105. Passports may be amended in the United States by the Department of State or any of the passport agents of the Department of State.

For the purpose of carrying into effect the provisions of section 20 of the act of Congress approved June 10, 1922, as amended by section 6 of the act of July 2, 1926 (44 Stat. 780, 782), relative to increased pay for personnel of the Army, Navy, Marine Corps, Coast Guard, and National Guard when by orders of competent authority they are required to participate regularly and frequently in aerial flights, and when in consequence of such orders they do participate in regular and frequent flights, the following regulations, effective for the National Guard April 1, 1927, and effective for all other services July 1, 1927, are hereby promulgated and made applicable to all officers, warrant officers, and enlisted men of all branches of the Army, Navy, Marine Corps, Coast Guard, and National Guard.

1. *Definitions.* (a) The term "qualified aircraft pilot," as used in these regulations, shall be construed to include any commissioned or warrant officer or enlisted man of any branch of his respective service who on July 2, 1926, held the rating of Airplane Pilot, or Airship Pilot, in the Army Air Corps, or who may thereafter by competent authority be rated an Airplane Pilot in the Army or the National Guard, or who has been or may hereafter be designated or appointed a Naval Aviator or Naval Aviation Pilot by competent authority in the Navy or Marine Corps, or who has been or may hereafter be designated or appointed a Coast Guard Aviator or Coast Guard Aviation Pilot by competent authority in the Coast Guard.

- |  |   |
|--|---|
| (a) During one calendar month.   | 10 or more flights totaling at least 3 hours, or in lieu thereof to be in the air a total of at least 4 hours.  |
| (b) During 2 consecutive calendar months, when the requirements of subparagraph (a) above have not been met. | 20 or more flights totaling at least 6 hours, or in lieu thereof to be in the air a total of at least 8 hours.  |
| (c) During 3 consecutive calendar months, when the requirements of subparagraph (b) above have not been met. | 30 or more flights totaling at least 9 hours, or in lieu thereof to be in the air a total of at least 12 hours. |

(d) For fractions of a calendar month the number of aerial flights and the time in the air required shall bear the same ratio to the number of flights and the time in the air required for a full calendar month as the period in question bears to a full calendar month.

(e) For fractions of two consecutive calendar months the period in question shall be considered as a unit and the number of aerial flights and time in the air required shall bear the same ratio to the number of aerial flights and time in the air required for a full calendar month as the period in question bears to a full calendar month.

NOTE: The above requirements for any particular period may be met at any time during such period.

(f) Each officer, warrant officer, or enlisted man who is required by competent authority to participate regularly and frequently in aerial flights and who is a qualified aircraft pilot, and who is fit for duty as such, shall make the flights above required as pilot, except that an officer, warrant officer, or enlisted man who is both a qualified pilot of lighter-than-air aircraft and a qualified aircraft observer shall make the flights above required either as pilot or as observer as may be directed by competent authority.

(g) Each officer, warrant officer, or enlisted man who is required by competent authority to participate regularly and frequently in aerial flights, and who is a qualified aircraft observer but is not a qualified aircraft pilot, shall make the flights above required as observer.

| (c) During 3 consecutive calendar months of any quarterly period, when the requirements of subparagraph (b) above have not been met. | 12 aerial flights totaling at least 216 minutes, or be in the air in lieu thereof a total of 288 minutes. |

(d) Such required flights may be made at ordered drills of the Air Corps organization to which such officer, warrant officer, or enlisted man belongs or is attached, or at other times when so authorized by the senior Air Corps commanding officer of the State.

(e) For fractions of a calendar month, the number of aerial flights and the time in the air required shall bear the same ratio to the number of flights and the time in

the air required for a full calendar month as the period in question bears to the entire month.

(f) The duties prescribed above shall be in addition to any other duty or duties which may be required of such officers, warrant officers, and enlisted men while in attendance at assemblies for drill and instruction, and while participating in exercises or performing duties provided for by sections 94, 97, and 99 of the National Defense Act as amended.

12. A commanding officer shall suspend from flying any officer, warrant officer, or enlisted man under his command who, in his opinion, is unfit for flying, except as a result of an aviation accident. When any officer, warrant officer, or enlisted man, so suspended from flying, becomes, in the opinion of his commanding officer, again fit for flying, the commanding officer shall revoke his suspension from flying and such action shall be reported, with reasons therefor, for confirmation to the authority who confirmed the suspension from flying; the confirmation of such revocation shall have the effect of terminating the suspension of the officer, warrant officer, or enlisted man concerned from the date of such revocation by his commanding officer: *Provided*, That in the case of suspension from flying by reason of sickness or injury incurred in line of duty and the suspension is subsequently removed, such suspension shall be considered as nullified from its beginning and the individual concerned shall be entitled to increased pay for flying provided the requirements of paragraph 10 above are complied with.

13. Authorized leaves of absence of personnel required by orders of competent authority to participate regularly and frequently in aerial flights shall not suspend such orders for pay purposes.

14. Compliance with the foregoing requirements constitutes participation in regular and frequent aerial flights within the meaning of the act approved July 2,

1926 (44 Stat. 780), and no flight pay shall accrue to any person during any period in which the provisions of this order are not complied with.

The provisions of this order become effective July 1, 1932.

### DOCUMENTS REQUIRED OF ALIENS ENTERING THE UNITED STATES

By virtue of the authority vested in me by the act of Congress approved May 22, 1918 (40 Stat. 559), entitled "AN ACT To prevent in time of war departure from or entry into the United States contrary to the public safety," as extended by the act of Congress of March 2, 1921 (41 Stat. 1205-1217), entitled "AN ACT Making appropriations for the Diplomatic and Consular Service for the fiscal year ending June 30, 1922," and with reference to the act of Congress of May 26, 1924 (43 Stat. 153-169), as amended, known as the "Immigration Act of 1924," I hereby prescribe the following regulations governing the entry of aliens into the United States. (In addition to the general immigration laws and regulations, there are special laws and regulations governing the admission of Chinese.)

## I

*Immigrants*

Immigrants must present immigration visas, quota or nonquota, in accordance with the requirements of the Immigration Act of 1924, except—

(1) Children born subsequent to the issuance of the immigration visa of the accompanying parent. Such children are not required to present documents of any kind.

(2) Aliens who have previously been admitted legally into the United States, have departed therefrom and returned within six months, not having proceeded to countries other than Canada, Newfoundland, St. Pierre, Miquelon, Bermuda, Mexico, Cuba, and other islands included in the Bahama and Greater Antilles groups, are not required to present passports, visas, or permits to reenter.

(3) Aliens, other than those specified in (2) above, who have previously been admitted legally into the United States, have departed therefrom, and are returning from a temporary visit abroad, may present, in lieu of immigration visas, permits to reenter, issued pursuant to section 10 of the Immigration Act of 1924.

With reference to section 28(e) of the Immigration Act of 1924, the Executive Secretary of the Panama Canal, Balboa Heights, Canal Zone, is hereby authorized to issue immigration visas to aliens coming to the United States from the Canal Zone; the Collector of Customs of the Philippine Islands is hereby authorized to issue immigration visas to aliens coming to the United States from the Philippine Islands; the Governor of American Samoa is hereby authorized to issue immigration visas to aliens coming to the United States from American Samoa; and the Governor of Guam is hereby authorized to issue immigration visas to aliens coming to the United States from Guam.

## II

*Nonimmigrants*

With the exceptions hereinafter specified, nonimmigrants must present passports or official documents in the nature of passports issued by the governments of the countries to which they owe allegiance, duly visaed by consular officers of the United States: *Provided, however,* That no passport visa or transit certificate to enter the United States or the Philippine Islands shall be granted to such an alien if such entry would be contrary to the public safety.

*Exceptions*

(1) Persons in transit through the United States or the Philippine Islands to a foreign destination. They may present transit certificates according to regulations prescribed by the Secretary of State.

(2) Aliens who are through passengers on vessels touching at ports of the United States. In this connection the term "United States" is to be construed as in section 1 of the Immigration Act of 1917 (39 Stat. 874). They may land temporarily, under regulations prescribed by the Secretary of Labor, without documents of any kind.

(3) Passports may include any person or persons whose inclusion is proper under the regulations of the issuing government and whose photographs are attached thereto.

(4) Citizens of St. Pierre and Miquelon and French citizens domiciled therein; citizens of Canada, Newfoundland, Bermuda, the Bahamas, and islands in the Greater Antilles and Lesser Antilles groups, and the Windward Islands, and citizens or subjects of the countries to which such islands belong, domiciled therein; citizens of Panama, Mexico, Cuba, Haiti, and the Dominican Republic. Such persons may pass in transit through the United States, or enter the United States temporarily, without passports, visas, or transit certificates.

(5) Seamen. Masters of vessels of all nationalities sailing for a port of the United States must submit for visa a list of all the alien members of the vessel's crew to the American consular officer at the port from which the vessel commences its voyage. If there is no American consular officer stationed at that port, the crew list should be submitted at the first port of call (if the vessel touches at any other port) where an American consular officer is located. This does not refer to consular agents, who are not authorized to visa crew lists. However, this paragraph has no application to members of crews of vessels sailing between ports of the United States and ports of Canada, Newfoundland, St. Pierre, and Miquelon and not touching at ports of other countries. Such persons are not required to be documented.

When a vessel sails from a port where no American consul is stationed, but which is within a few hours reach by mail of an American consulate, so that unreasonable delay and serious loss would not result from referring the crew list to such consulate, it should be referred thereto for visa.

The visa of a shipping commissioner in the Canal Zone shall be accepted as equivalent to the visa of an American consul.

If an alien seaman whose name is not included in a visaed crew list arrives at a port of the United States, he shall not be allowed to land except upon the permission of the Secretary of State.

(6) Aliens making round-trip cruises from American ports without transshipment from the original vessel to another one while *en route*, provided the original contract for passage calls for transportation from an American port to the ports included in the cruise, and return to either the original or another American port, require no visas for reentry into the United States.

(7) Aliens of no nationality, and those who, when they apply for visas, are outside of the territories of the countries to which they owe allegiance and who, for any reason, are unable to obtain passports or documents in the nature of passports issued by the governments of such countries, and aliens bearing passports issued by governments not recognized by the United States. They may enter the United States with documents showing their origin and identity, visaed by consular officers, under regulations prescribed by the Secretary of State.

(8) In cases of emergency the Secretary of State is authorized in his discretion to waive passport and visa requirements for aliens who are nonimmigrants as defined in section 3 of the Immigration Act of 1924 (43 Stat. 153, 154), as amended, and who apply for admission at a port of entry of the United States.

(9) The Executive Secretary of the Panama Canal, Balboa Heights, Canal Zone, is hereby authorized to issue passport visas and transit certificates to aliens coming to the United States from the Canal Zone; the Collector of Customs of the Philippine Islands is hereby authorized to issue passport visas and transit certificates to aliens coming to the United States from the Philippine Islands; the Governor of American

Samoa is hereby authorized to issue passport visas and transit certificates to aliens coming to the United States from American Samoa; and the Governor of Guam is hereby authorized to issue passport visas and transit certificates to aliens coming to the United States from Guam.

### III

(1) Aliens entering the Philippine Islands, except those referred to in II(1) and II(2), must present passports or documents in the nature of passports, duly visaed by consular officers of the United States; but seamen on vessels of all nationalities touching at a port of the Philippine Islands are not required to be documented. Masters of such vessels are, therefore, not required to present visaed crew lists.

(2) Aliens entering any other American possessions not included under section 28(a) of the Immigration Act of 1924 (43 Stat. 153, 168), do not require documents of any kind.

The definition contained in section 28 of the Immigration Act of 1924 shall be regarded as applicable to this order, except as herein otherwise specified.

The Secretary of State and the Secretary of Labor are hereby authorized to make such additional rules and regulations, not inconsistent with this order, as may be deemed necessary for carrying out the provisions of this order and the statutes mentioned herein.

### CONTINUING TEMPORARILY THE PRESENT STANDARDIZED GOVERNMENT TRAVEL REGULATIONS, SUBJECT TO CERTAIN MODIFICATIONS

Part II, sections 207 and 208, of the act entitled "AN ACT Making appropriations for the Legislative Branch of the Government for the fiscal year ending June 30, 1933, and for other purposes," approved June 30, 1932, amends the Subsistence Expense Act of 1926 (44 Stat. 688, 689) by amending sections 3 and 7 thereof, and repealing sections 4, 5, and 6 thereof, effective July 1, 1932.

The Standardized Government Travel Regulations, as amended effective July 1, 1931, approved by the President April 21, 1931, shall continue in effect from and including July 1, 1932, until such time as amended standardized regulations are approved, subject to the following conditions, viz:

(1) All provisions relating to reimbursement of actual expenses for subsistence are revoked.

(2) Per diem in lieu of actual expenses for subsistence may be allowed not to exceed the rate of \$5 within the limits of continental United States, and not to exceed an average of \$6 beyond the limits of continental United States.

(3) Reimbursable transportation charges will not include gratuitous fees or tips of any kind.

The rates of the per diem in lieu of actual expenses for subsistence authorized by the amendatory law and which are set forth above represent the maximum allowable, not the minimum. It is the responsibility of the heads of the departments and establishments to see that travel orders authorize only such per diem rates as are justified by the nature of the travel.

### ADMINISTRATIVE FURLONGHS

In pursuance of the provisions of section 216 of Part II, Title II, of the act entitled "AN ACT Making appropriations for the Legislative Branch of the Government for the fiscal year ending June 30, 1933, and for other purposes," approved June 30, 1932, which reads as follows:

"SEC. 216. In order to keep within the appropriations made for the fiscal year 1933, the heads of the various executive departments and independent establish-

ments of the United States Government and the municipal government of the District of Columbia are hereby authorized and directed to furlough, without pay, such employees carried on their respective rolls, such time as in their judgment is necessary to carry out said purpose without discharging such employees, the higher salaried to be furloughed first whenever possible without injury to the service: *Provided*, That rules and regulations shall be promulgated by the President with a view to securing uniform action by the heads of the various executive departments and independent Government establishments in the application of the provisions of this section."

the following regulations are hereby prescribed:

(1) Where an appropriation for a given activity, after deducting the amount to be impounded for compulsory furlough, is insufficient to an extent which ordinarily would require the dismissal of employees, the head of the department or establishment concerned will, in lieu of such dismissals, furlough employees, without pay, for such periods as are necessary to avoid a deficit in the appropriation and without discharging employees who are qualified to perform the class of work which is to be continued. The higher-salaried employees will be furloughed first whenever possible without injury to the service. Subject to this condition, the total period of furlough under the provisions of this section will, so far as practicable and with due regard to the efficiency of the service, be uniformly distributed among the employees. This, however, will not be construed as requiring the transfer of employees from one post of duty to another for the sole purpose of shortening the period of furlough of such employees.

(2) Furloughs under section 216 will be restricted to the utmost degree possible and invoked only where absolutely necessary to keep within the appropriations for the fiscal year 1933. In determining such necessity, consideration will be given to all possible means of avoiding furloughs, such as the transfer of qualified employees from one appropriation roll to another, the possibility of transfer of appropriations under section 317 of the same act, and such administrative economies as may be possible in other items.

### UNSANCTIONED ASYLUM

Section 6, Chapter VII, Instructions to Diplomatic Officers, is hereby canceled and the following substituted therefor:

VII-6. *Unsanctioned asylum.* Recent political disturbances in certain countries, together with the resultant requests for shelter in diplomatic missions by individuals whose personal safety was believed to be in danger, suggests the advisability of again stating this Government's position with respect to the granting of asylum in American embassies and legations.

Immunity from local jurisdiction is granted foreign embassies and legations to enable the foreign representatives and their suites to enjoy the fullest opportunity to represent the interests of their states. The fundamental principle of legation is that it should yield entire respect to the exclusive jurisdiction of the territorial government in all matters not within the purposes of the mission. The affording of asylum is not within the purposes of a diplomatic mission.

The limited practice of legation asylum, which varies in the few states permitting it according to the nature of the emergency, the attitude of the government, the state of the public mind, the character of the fugitives, the nature of their offenses, and the legation in which asylum is sought, is in derogation of the local jurisdiction. It is but a permissive local custom practiced in a limited number of states where unstable political and social conditions are recurrent.

There is no law of asylum of general application in international law. Hence, where asylum is practiced, it is not a right of the legate state but rather a custom invoked or consented to by the territorial government in times of political instability. While the practice is recognized in most of the Latin American countries, and was the subject of a convention signed at Habana at the Sixth Pan American Conference in 1928, it has never existed in the United States and has never been recognized as a right which could be claimed by refugees or granted by diplomatic missions. The custom is justified publicly on humanitarian grounds, but in practice it is used pri-

marily for the personal protection of conspirators planning a *coup d'état* or for the government fearing or experiencing one.

American diplomatic officers will be guided by these considerations and will bear in mind that the Government of the United States can not countenance the affording of protection to other than uninvited fugitives whose lives are in imminent danger from mob violence; that such protection may continue only so long as such imminent danger continues; that asylum must be refused to persons fleeing from the pursuit of the legitimate agents of the local government, and in case such persons have been admitted they must be either surrendered or dismissed from the embassy or legation.

15. Except as provided in paragraph 14 returns may be inspected only in the office of the Commissioner of Internal Revenue, Washington, D.C., unless such returns are in the custody of a collector of internal revenue or internal revenue agent in charge, in which event the return may be inspected in the office of such collector or agent, but only in the presence of an internal revenue officer designated by the collector or agent for that purpose. When the returns are in the custody of a collector of internal revenue or internal revenue agent in charge, such collector of internal revenue or internal revenue agent in charge is authorized to grant permission for the inspection of such returns in accordance with these regulations.

16. The Commissioner of Internal Revenue shall cause to be prepared a written decision in every case in which an overassessment (whether resulting in a refund, credit, or abatement) of an income, war-profits, excess-profits, estate, or gift tax is allowed, in excess of \$20,000, and such decision shall be considered a public record and shall be open to inspection, during regular hours of business, in the office of the Commissioner of Internal Revenue or such office as he may designate. Such decision shall give the amount of the overassessment and shall be accompanied by a brief summary of the relevant facts and a citation of the authorities applicable thereto, or, in a case in which a decision of a court or of the Board of Tax Appeals has become final, by a citation of the court or Board decision. Under no circumstances shall the provisions of this paragraph be construed as making any return, or any part thereof, open to inspection, or as authorizing the source of any income, gains, or profits, or the specific transactions resulting in losses or expenditures, to be made public; nor shall any of the information contained in any return or relating thereto be made public except in accordance with, and to the extent necessary in carrying out, these regulations.

17. A person who, under these regulations, is permitted to inspect a return may make and take a copy thereof or a memorandum of data contained therein.

18. By section 3167, Revised Statutes, as amended by the Revenue Act of 1918, and reenacted without change in section 1311 of the Revenue Act of 1921 and in section 1018 of the Revenue Act of 1924 and in section 1115 of the Revenue Act of 1926, it is made a misdemeanor for any person to print or publish in any manner whatever not provided by law any income return, or any part thereof or source of income, profits, losses, or expenditures, appearing in any income return, which misdemeanor is punishable by a fine not exceeding \$1,000 or by imprisonment not exceeding one year or both, at the discretion of the court, and if the offender be an officer or employee of the United States, by dismissal from office or discharge from employment.

### AMENDMENTS TO THE CONSULAR REGULATIONS

The Consular Regulations are hereby amended as follows:

144B. *Presumption of expatriation from residence abroad of naturalized citizens.* When any naturalized citizen of the United States, or a person who was naturalized in an insular possession of the United States prior to annexation of such possession by the United States and who acquired American naturalization as a result of such annexation, or a person who has been naturalized as an American national in any of the insular possessions of the United States subsequent to annexation, shall have resided for two years in the foreign state from which he came, or for five years in any

other foreign state, it shall be presumed that he has ceased to have American nationality, and the place of his general abode shall be deemed his place of residence during said years:

*Provided, however,* that such presumption may be overcome on the presentation of satisfactory evidence to a diplomatic or consular officer of the United States, under such rules and regulations as the Department of State may prescribe.

158. *Applications of naturalized citizens, and persons claiming citizenship through naturalization of husband or parent.* Naturalized citizens or persons claiming citizenship through the naturalization of a husband or parent must exhibit their certificates of naturalization or those of their husbands or parents through whom citizenship is claimed. Further evidence of the applicant's citizenship may be required, if deemed necessary. If any such person is unable to submit such documentary evidence of his naturalization, the Department should be informed of the name of the court in which he alleges that he obtained naturalization and the date thereof, so that the Department may take steps to verify his allegation. In taking the applications of naturalized citizens, or of those claiming citizenship through relationship to a naturalized citizen, consular officers will be careful to investigate each case in order to ascertain whether or not the statutory presumption of expatriation may not have arisen against the applicant through the length of his residence abroad.

Section 159 is amended to read:

159. *Applications of persons who owe allegiance to the United States other than citizens thereof.* A citizen or inhabitant of an insular possession of the United States, in addition to the information required in the case of a citizen of the United States, must state that he owes allegiance to the United States and does not acknowledge allegiance to any other Government. He must also submit an affidavit from at least one credible witness in substantiation of his statement of birth, residence and allegiance.

Section 160 is amended to read:

160. *Expiration of passports.* The validity of a passport is limited by statute to two years, unless the Secretary of State shall by regulation limit it to a shorter period. Act of July 3, 1926 (44 Stat. 887); acts of July 1, 1930 (46 Stat. 839), and May 16, 1932 (47 Stat. 157).

165. *Wife and minor children.* When the applicant for a passport is accompanied by his wife and minor children, one passport will suffice for all if the facts concerning such persons are clearly stated in the application, and their names and relationship to the applicant are given in the passport.

A woman's passport may include her minor children under the above-named conditions.

A minor brother or sister may be included in the passport of an older brother or sister.

A minor grandchild, niece, or nephew may be included in a relative's passport when the application is accompanied by a request therefor by the parent or guardian.

A person who does not owe allegiance to the United States may not be included in a passport issued to a person owing allegiance thereto, nor shall a person who is unable to rebut the presumption of expatriation be included in a passport.

166. *Signature by holder and surrender of other documents.* Whenever a passport is delivered, the consul will see that the same is signed by the person to whom it is issued before it is delivered. In sending a passport by mail the person to whom it is issued should be instructed to sign it upon receipt; the necessity for this should be emphasized. It is not proper for a person to be in possession of two valid documents of identity and nationality at the same time; therefore, before a passport is delivered, the person to whom it is issued should surrender previous passports, certificates of registration, citizen seamen's identity cards, certificates of identification for seamen, etc.

Section 167 is amended to read:

167. *Fees.* A fee of \$1 must be collected for executing every application for a passport, and a fee of \$9 must be collected for every passport issued with the following exceptions:

No fee should be collected for passports issued to officials or employees of the United States proceeding abroad in the discharge of their official duties or to members of their immediate families, or to seamen, or to widows, children, parents, brothers, and sisters of American soldiers, sailors, or marines, buried abroad, whose journey is undertaken for the purpose and with the intent of visiting the graves of such soldiers, sailors, or marines, which facts shall be made a part of the application for a passport.

A fee of \$5 must be collected for the renewal of every passport, except in the cases of persons mentioned in the preceding paragraph who maintain the same status as held by them at the time of the issue of their passports without fee and who are abroad for the same purpose for which their passports were issued. Act of June 4, 1920 (41 Stat. 739, 750); act of July 3, 1926 (44 Stat. 887), as amended by the acts of July 1, 1930 (46 Stat. 839), and May 16, 1932 (47 Stat. 157).

### SICK LEAVE REGULATIONS

In pursuance of the provisions of section 215 of Part II, Title II, of the act entitled "AN ACT Making appropriations for the Legislative Branch of the Government for the fiscal year ending June 30, 1933, and for other purposes," approved June 30, 1932, which reads as follows:

"SEC. 215. Hereafter no civilian officer or employee of the Government who receives annual leave with pay shall be granted annual leave of absence with pay in excess of fifteen days in any one year, excluding Sundays and legal holidays: *Provided*, That the part unused in any year may be cumulative for any succeeding year: *Provided further*, That nothing herein shall apply to civilian officers and employees of the Panama Canal located on the Isthmus and who are American citizens or to officers and employees of the Foreign Services of the United States holding official station outside the continental United States: *Provided further*, That nothing herein shall be construed as affecting the period during which pay may be allowed under existing laws for so-called sick leave of absence: *Provided further*, That the so-called sick leave of absence, within the limits now authorized by law, shall be

administered under such regulations as the President may prescribe so as to obtain, so far as practicable, uniformity in the various executive departments and independent establishments of the Government."

the following regulations are hereby prescribed:

(1) Sick leave with pay may be granted to civilian officers and employees by the executive departments and independent establishments of the Government, within the limits now authorized by law, when in meritorious cases such officers and employees are incapacitated from the performance of their duties by sickness or injury; or when some member of the immediate family is afflicted with a contagious disease and requires the care and attendance of such officer or employee, or when, through exposure to contagious disease, presence at his post of duty would jeopardize the health of others.

(2) The entire amount of sick leave authorized by law may be granted at one time or fractionally. The minimum charge for sick leave shall be one-half day. The period of sick leave that may be granted in any one leave year shall not exceed 30 days, unless a longer period is specifically conferred by law.

(3) Slight illness or indisposition, or absence for the purpose of medical examination, will not be regarded as sufficient reason for the allowance of sick leave. Absence for the purpose of being treated professionally by a dentist or oculist in his office is not allowable as sick leave, but this is not intended to disallow sick leave for detention at home or hospital by illness or disability due to causes as to which a dentist or oculist is qualified to certify.

(4) Unless otherwise prescribed by law, sick leave expires at the end of the leave year and is not cumulative and may not be granted at the beginning of the leave year immediately following a period of absence in a nonpay status in the preceding leave year unless and until there has been a return to actual duty in the new leave year.

(5) Sundays and holidays within a period of sick leave will be charged as sick leave except when immediately preceding or following a period of sick leave if the officer or employee was in a pay status immediately prior to or following such Sundays or holidays.

(6) Notification of absence on account of sickness shall be given as soon as possible on the first day of absence. Application for sick leave must be filed within two days after return to duty.

(7) The application for sick leave for periods in excess of two days must be supported by the certificate of a registered practicing physician or other practitioner, except that in remote localities where such certificate can not reasonably be obtained, the applicant's signed statement as to the sickness and the reasons why a certificate is not furnished may be accepted. For periods of two days or less, up to an accumulation of 12 days in any one leave year, the applicant's signed statement on the required form may be accepted.

The heads of the departments and establishments are responsible for seeing that the granting of the so-called sick leave, within the limits authorized by law, is made only in those cases where the absence is due to causes for which the so-called sick leave is provided.

These regulations shall not be construed as affecting the sick leave of employees in the Postal Service, officers and employees of the Panama Canal located on the Isthmus, the officers and employees of the Foreign Services of the United States holding official station outside the continental United States, or as modifying Executive Order No. 5396, dated July 17, 1930, relating to special leaves of absence to be given disabled veterans in need of medical treatment.

### REINSTATEMENT OF EDWARD N. DINGLEY, JR.

Mr. Edward N. Dingley, jr., may be reinstated in an approved vacancy in the rating of associate radio engineer, Professional Service, grade 3, at the Naval Research Laboratory, Bellevue, D. C., without regard to the requirement of Reinstatement Rule IX as to length of prior service.

In consideration of Mr. Dingley's experience in the duties involved and the fact that his qualifications so well fit him for the position, it is believed that the best interests of the Government would be served by his reinstatement. Mr. Dingley, from his entrance into the service November 23, 1926, to the present time, has been

almost continuously engaged in work tending to increase his professional value to the department, and but for the fact that a part of this service was rendered in research work under large commercial organizations instead of the Government, would have been technically eligible for reinstatement by reason of length of service.

This order is issued on recommendation of the Secretary of the Navy, and the Civil Service Commission concurs in recommending it.
